more information!**

**COPI is a non-profit
organization centered
around community building
events and ecotourism.**

**COPI has created a
mangrove restoration
project in response to
hurricane Maria and needs
volunteers!**

OUR GOAL

To protect and conserve.
We aim to restore health in
the mangrove forests and
to repopulate our oldest
protection against
hurricanes.

What We Do

Seed Collection

We collect Red, Black and White Mangrove seeds.

Soil Preparation

We remove all debris and brush from planting areas and condition the soil for saplings

Planting

We bring saplings 1-2 feet tall to be planted in areas we have prepared.

How You Can Help!

We accept volunteers and donations to keep our projects going!

If you, or someone you know, is willing and able to volunteer or donate, please visit our website. Learn more at COPImangroves.com about the history of our beloved forests.
