

Newsflash!

The News is always Wright

Ever hear of a slow news day? Well, this is the opposite. There's in fact so much news the paper had to push its planned feature on the Flight Gallery into a special section called "The Wright Enterprise." While all of our journalists and editors are busy working the latest event, nobody has time to work on this section. It is now up to you to complete our special feature on the Flight Gallery. Use the lines provided to draw and write about an exhibit and its benefits to society. With your expert reporting we won't have to stop the presses.
