

SBA Task Force

February 8, 1977

Mr. Duane D. Pearsall
President

Dear Duane:

It has certainly been a pleasure meeting and working with you on the SBA project.

In reading the final report, I was very pleased with the outcome and think that we may have accomplished something. I think it is remarkable that so many of the different ideas presented at the meetings were brought together into one document. I personally hoped that more specific proposals for the very small businesses could have been presented, but I certainly realize the problems involved.

Again, it was a pleasure meeting you and sincerely hope we have the opportunity to meet again.

Cordially,
