

NETWORK OVERVIEW

About

The Women of Water group is made up of women working in the water and wastewater sectors of the Western Balkans, United States, and beyond. The group will serve as a forum for discussion, networking, and mentorship, in the hope that it will help begin an effort towards increasing women's opportunities and advancement in the sector.

Topics of discussion in the Facebook Group or for future events may include:

- Personal experiences
- Gender inequality in the sector
- Current and future improvements
- Opportunities within the sector
- Networking tips
- Mentorship

Possible Discussions

Objectives

Connect women in the wastewater sector worldwide and provide them a place to:

- Develop mentorship
- Connect with women worldwide
- Learn about opportunities in the sector
- Discussion on women's obstacles in the sector and possible solutions

Women from global water sectors, including:

- Professionals in the industry
- Students & professors
- And more!

Group roles consist of the following:

- Member: contributes to discussion and events
- Admin: handles membership, posts in group
- Moderator: posts/moderates discussion topics
