

# Smart Origami Shelter

## Who are we?

A team of IIT students developing a smart new type of shelter.

Our goal is to manufacture an origami shelter that meets your requirements and features 'smart' technologies.

## What is an Origami Shelter?

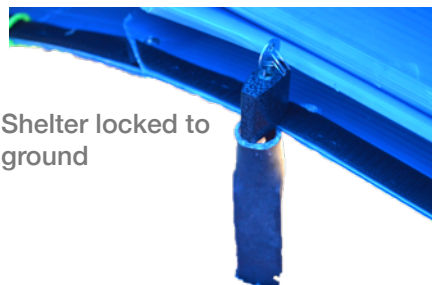

An extremely versatile shelter for sleeping anywhere, trekking, green houses, special events, and much more!

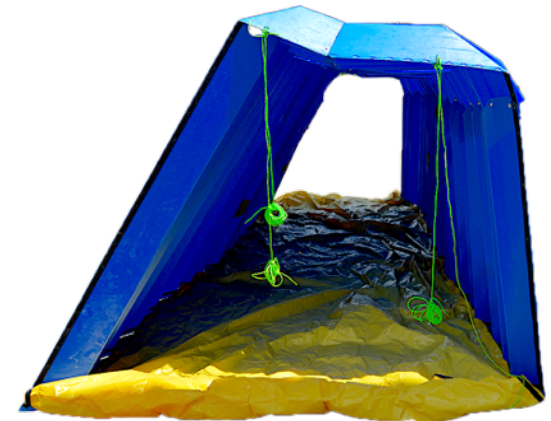

Rainwater collection

## Key features:

- **Waterproof**
- **Fire resistant**
- **Cost efficient**
- **Modularity (connect several together)**
- **Rigid (keeps shape)**
- **Lockable**
- **Solar power compatible**
- **Automatic rainwater collection**
- **Ventilation**
- **Shelving and storage space**
- **2000% expansion**

Shelter locked to ground
