

Distance Learning Programs in the National Park Service

Team Members

Nickalas DiNatale

Major: Industrial Engineering

Lily Durkin

Major: Robotics Engineering

Shamiha Khan

Major: Electrical and Computer Engineering

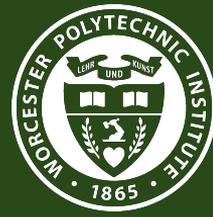

Kelly Miller

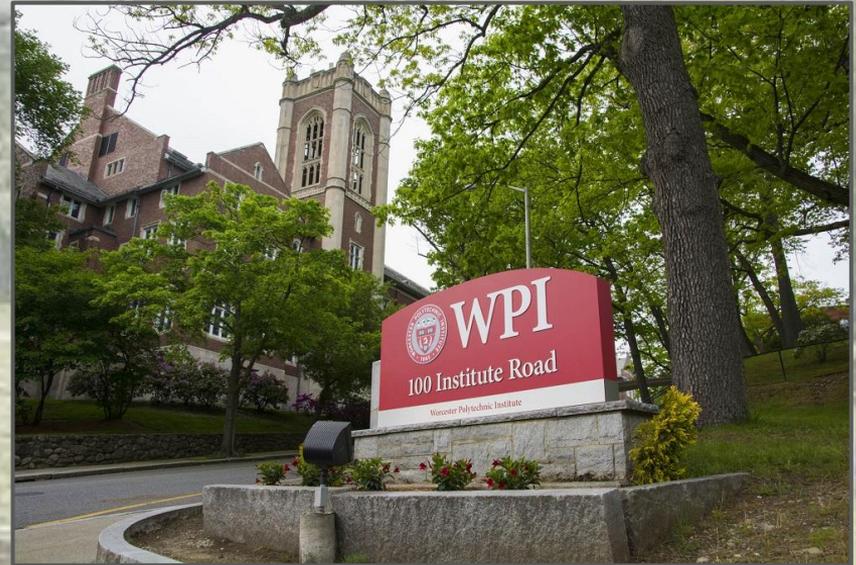

Major: Mechanical Engineering and Prof. Writing

Interactive Qualifying Project

- Working on an interdisciplinary team to solve a problem or need.
- Social science aspect of the engineering degrees.

Overview

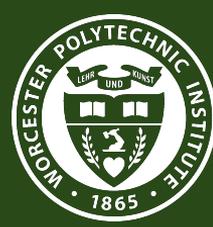

Background

Methodology

Findings

Deliverables/Recommendations

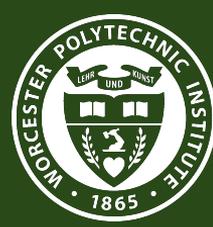

Software

Background

Rock Creek Park

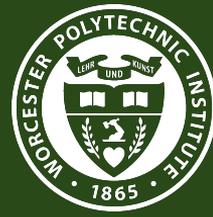

Educational Mission

- Astronomy
- Environment
- D.C. History and Peirce Mill
 - Washington as It Was Program

Peirce Mill

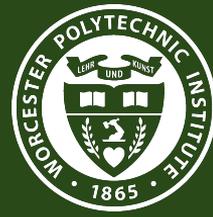

- Built by Isaac Peirce in 1829.
- Last functional grist mill in D.C.
- Focus of Washington as It Was
 - Part of the 3rd grade local history requirement

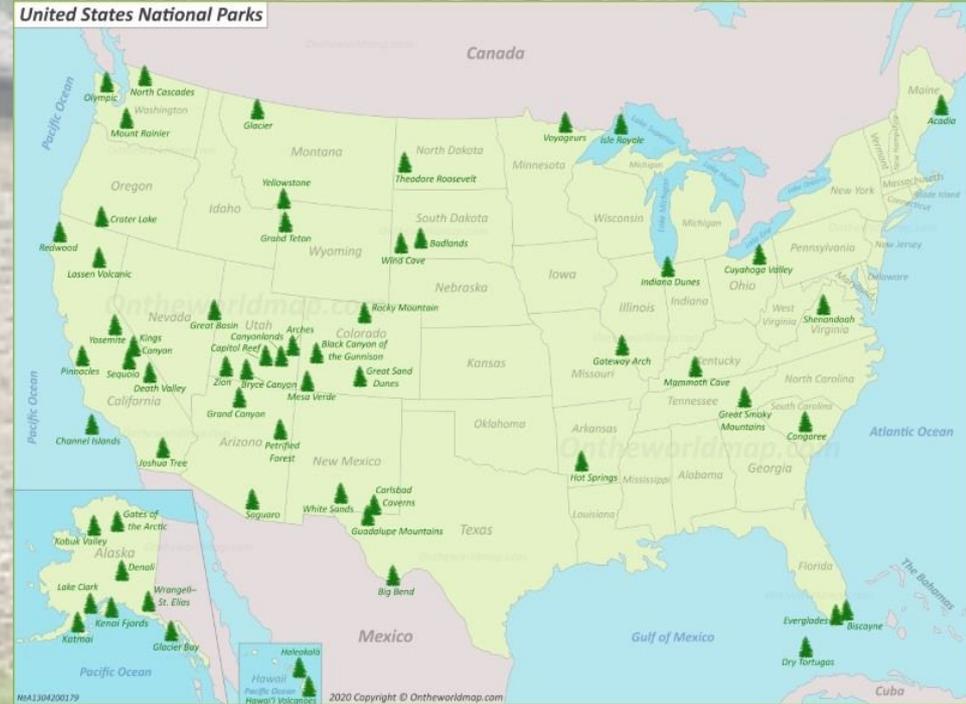

The Problem

National Park Service (NPS), and Rock Creek Park, wants to educate the next generation of national park supporters; however, not every elementary schooler is able to visit a national park.

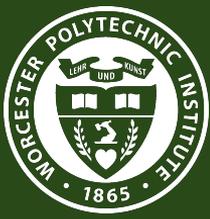

Purpose

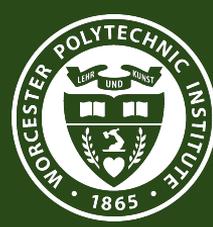

- Assess distance learning across the National Park Service.
- Provide distance learning lessons for Rock Creek Park.
- Create staff training materials.

Deliverables

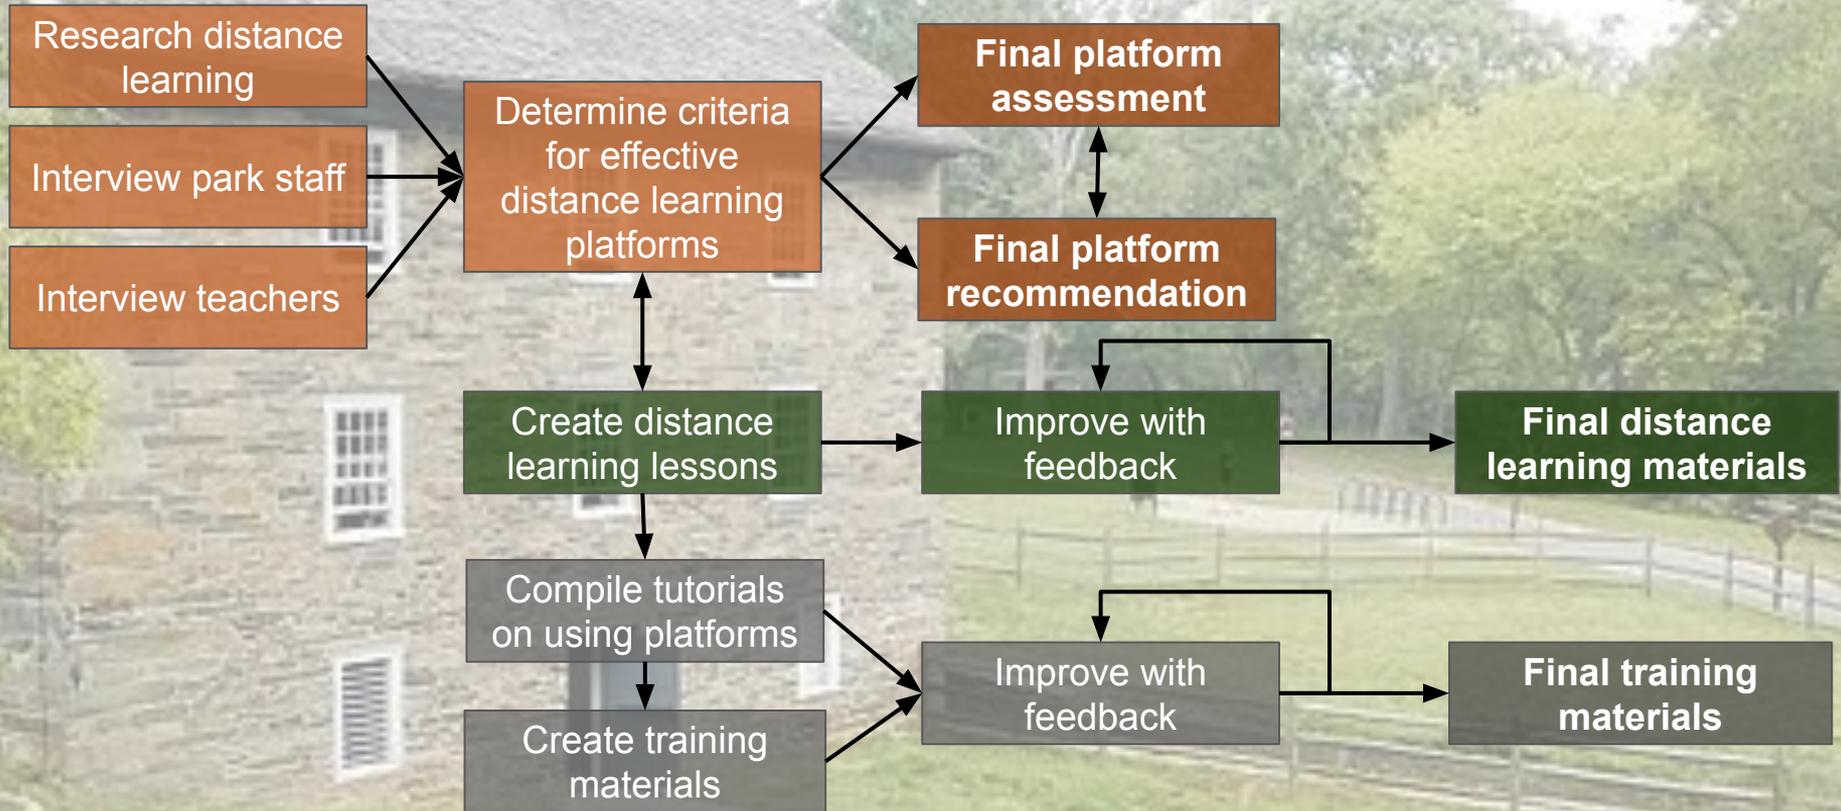

1. Assessment of distance learning technologies.
2. Lesson plan and virtual pre- and post- activities.
3. Staff tip sheet.

Methodology

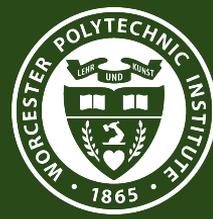

Flowchart

Phase 1: Platform Assessment

Interviews:

- Educators at 20 national parks and organizations
- 3 teachers

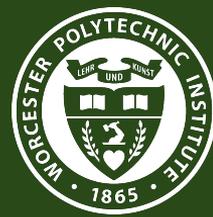

Research:

- Scholarly articles about distance learning
- Software websites

Phase 2: Lesson Plan and Activities

Research:

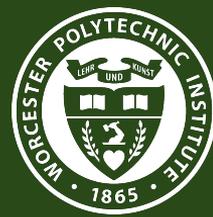

- Rock Creek Park's lesson plans
- 3rd grade history lesson plans

Create:

- Lesson plan based on DCPS 3rd grade standards
- 3 Pre-visit activities
- 3 Post-visit activities

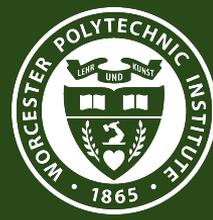

Phase 3: Staff Training Materials

Potential Formats:

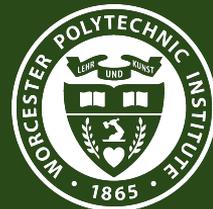

- Training manual
- Video tutorial
- Tip Sheet
 - Compiled tips and training materials from all parks

Findings & Conclusions

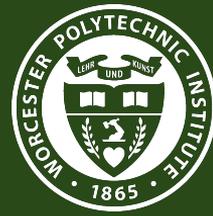

Teacher Interview Data

Current Grade	9-12	2	1
Grades Taught	K-4		Pre-K K
# of Years	6-8	12	2, 5-6
Prior Experience with DL	Limited Experience Before March	Since March	Since March
Platforms	Microsoft Teams Google Classroom	Google Meet Google Classroom Google Suite Nearpod Google Jamboard	Microsoft Teams
Future Platforms	Clever.com Nearpod	Nearpod SMARTSuite	Zoom Google Products
Features	All (Screen Share explicitly)	Breakout Rooms Muting	Mutine
Interactivity	Meetings Questioning Resorces Kahoot/Nearpod	Nonverbal Ques Chat Voice Gestures Hand Movements Poll Features	Mostly Verbal Thumbs Up/Down Write on White Board
Best Activities	Stuff Students can do Independently Low/No Cost Modifiable for Anyone	Interacting Among Themselves Breakout Rooms Really Good	Easier to do Science Projects at Home
Teacher Adjustments	Sitting for Long Times Student Participation Expectations and Consequences Steep Learning Curve Feel Isolated	Family Doing Work for Students Tech Issues Being Around Family Members	Very Hard to Teach Writing
Student Adjustments	Hard to Adhere to Schedule Afraid to Ask Questions	Being Responsible for Younger Siblings School, Work, and Home not Separate	Missing Social/Emotional Piece Kids Really Miss Seeing Each Other
Advice for National Parks	Start with Catching Interest Use Games Cohesive Lessons with Pre/Post Activities Use Pre/Post Activities for Vocab	Have Base Program then Tailor to School Email or Meeting with Teacher Prior to Program Schools can be Very Different from Each Other	Design Material for Specific Ages Be Enthusiastic Give 2 Week Notice for Materials Keep Programs Short and Sweet Use Games in Program Bilingual Would Be Nice
Disabilities	Computer Considered 1:1 Accomodation Things can be Read to Students Customizable Screen Magnification IEP has All Accomodations Students Need	IEP and 504 still Compliant Voice Recording Instead of Typing Closed Caption	Small Groups Use Visuals and Explain What's Happening Plan with Teachers Beforehand Move Around Take Breaks
Ranger Role	Interactive Speaker Keep Students Engaged Manage Time Wisely	Provide Content, Energy, and Engagement Just Presenting Information	Presenter Would Appreciate if Ranger Calls on Kids Make Program Feel Personal
Reason for Field Trips	Must Tie Into Curriculum and Be Engaging Must Justify Classroom Time A Good Opportunity for Students who Can't Travel	Brings What Students are Learning to Life Supports Curriculum Takes Students Places They Can't Go Normally	Normalize School Year Content-Related Field Trips Animal Center Programs in Rock Creek Park Would Not Utilize Pre/Post Activities
Pre/Post	Would Utilize Pre/Post Activities Video Introducing Students to Topic Assessment of Material Retention Afterwards	Would Utilize Pre/Post Activities Anything to Get Minds Working Help Inspire Questions A Reading	Would Not Utilize Pre/Post Activities No Time to Squeeze Into Schedule Will Send Them Home as Strictly Optional Material Videos are Nice Because Students can Watch on Own Time

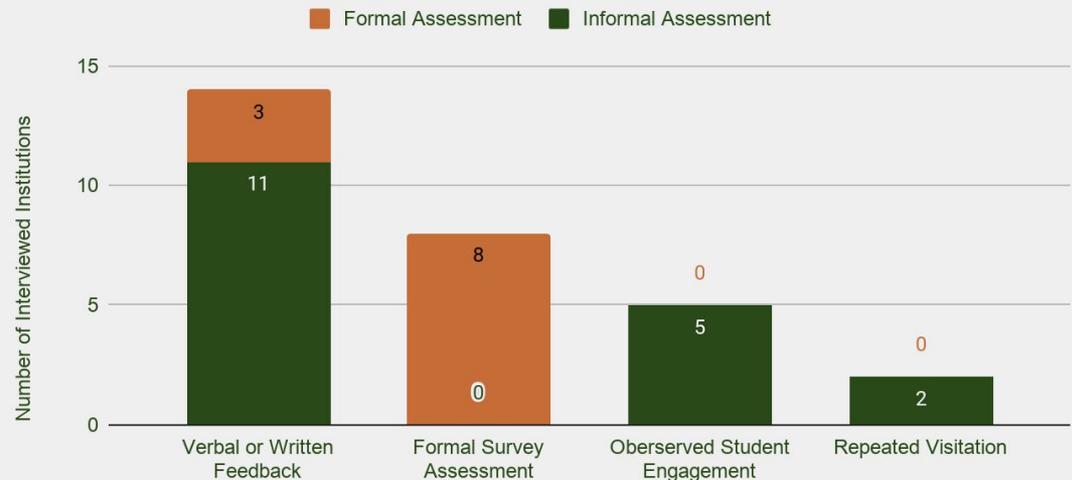

Assessment Methodology for Determining Program Effectiveness

- Federal Restrictions: NPS cannot administer surveys to more than 9 people.
- Must rely on a 3rd party for formal assessment.
 - Usually use CILC, Survey Monkey, or EE21 survey form.

Number of Interviewed Institutions Utilizing Specific Assessment Methods

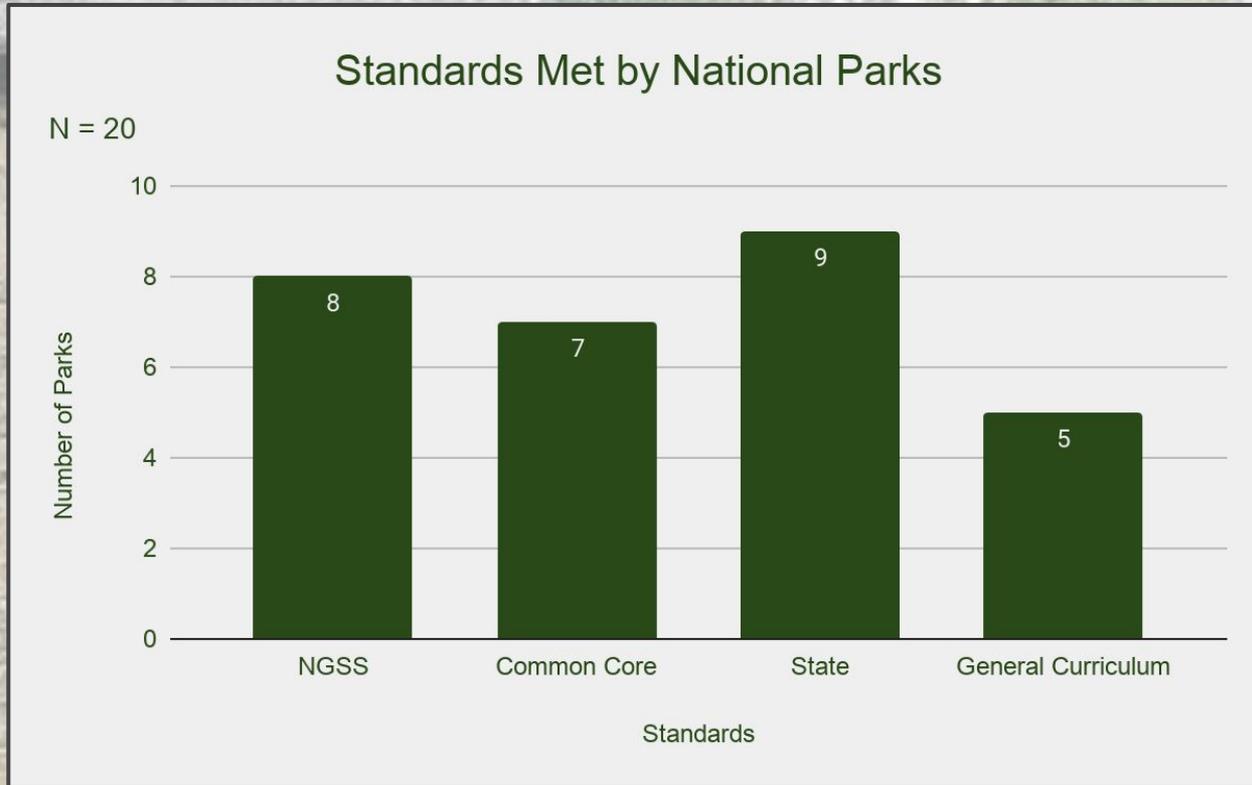

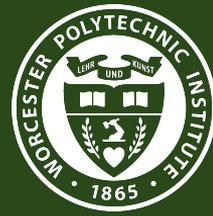

Note: Institutions can utilize multiple methods of program assessment.

N = 20

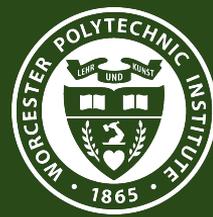

Programs Must Fulfill the Needs of the Teachers

Video Usage in DL Programs

Uses of Videos

- Pre-visit activities.
- Embedded videos in programs.

Benefits of Videos

- Areas with no internet.
- Show events that are time/nature dependant.

Accessibility Accommodations

Accommodations

1. 508 Compliance
2. Live/Closed Captioning
3. Audio Descriptions

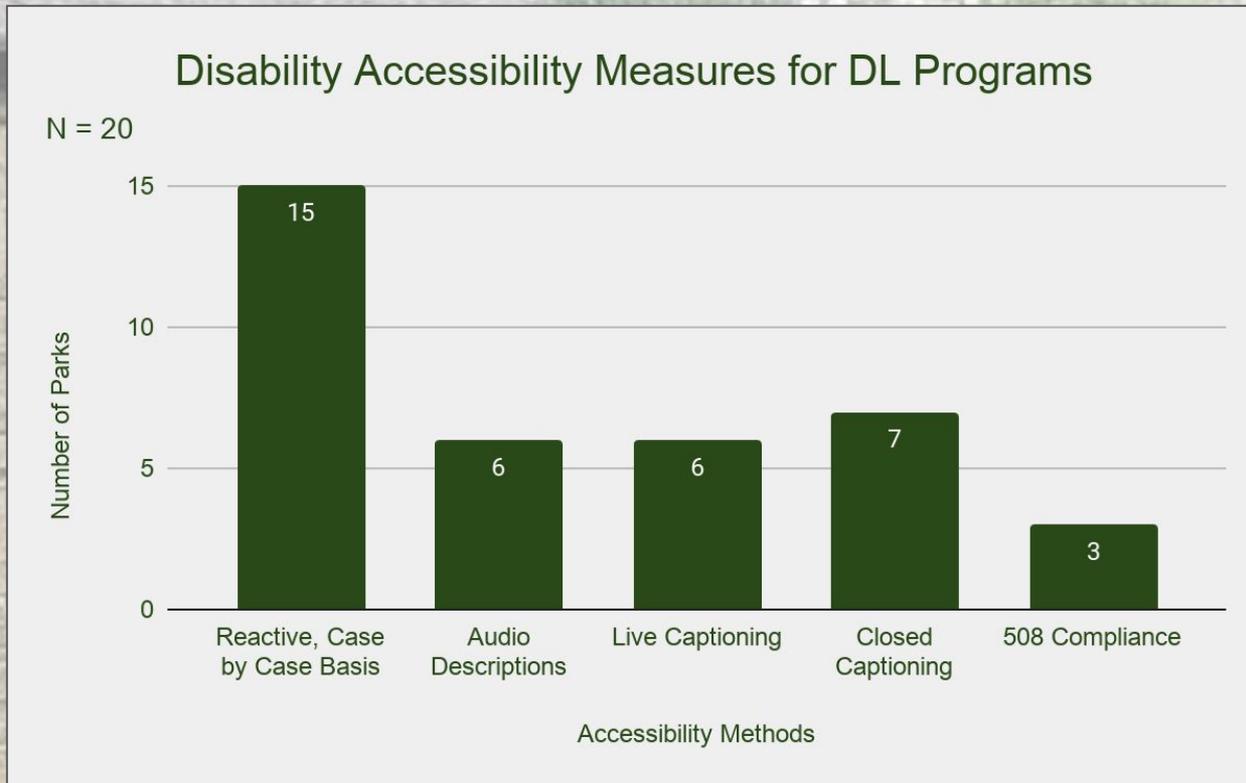

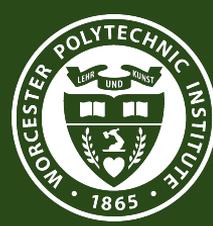

Work with the teachers individually.

Tips

- Join teacher's regular video conferencing platform.
- NPS has 508 compliance guidelines.
- Use audio description training through the NCA.

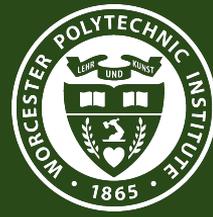

Accessibility Accommodations

Video Conferencing

Zoom

Live & Closed Captioning
Breakout rooms

Google Meet

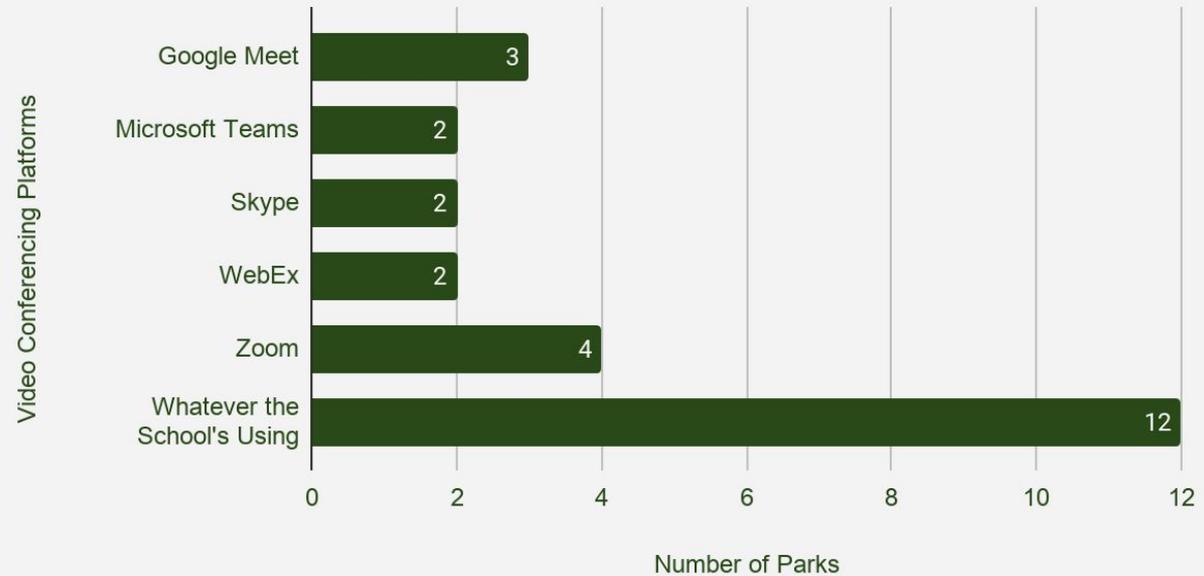

Live & Closed Captioning
Google Classroom Interface

Microsoft Teams

Approved by NPS
Superior Virtual Background

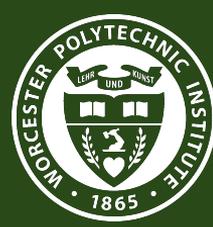

Video Conferencing Platforms Used by Institutions

N = 20

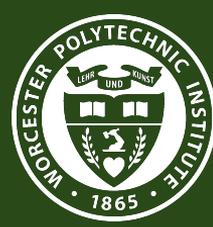

Most Popular Tips

1. Be engaging and energetic! (10/20)
2. Change pace (8/20)
3. Allow teachers to moderate (6/20)
4. Use props and costumes (6/20)
5. Know the tech and have a backup plan (5/20)

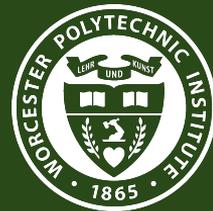

Deliverables

Lesson Plan

1

Washington As It Was: A DC History Distance Learning Program

Lesson Overview

Travel back 200 years to Washington's past, without leaving the city! At Peirce Mill, students can imagine a time when local farmers brought wagon-loads of corn to be milled along Rock Creek. They'll study maps of the city then and now, and hear about different milling techniques. They'll learn about the economics of milling, and discover why there were once so many mills in Washington, DC.

Topics: Local DC history, Peirce Mill, Economics, Milling, Mathematics

Curriculum Base: District of Columbia Public Education Standards

DCPS Grade 3 Social Studies: Geography and History of the District of Columbia

3.4	Emphasizing the most significant differences, students describe Washington, DC, at the end of the 18th, 19th, and 20th centuries.
3.4.1	Compare and contrast how people in the past met their needs in different ways (e.g., hunting and gathering, subsistence agriculture, barter, commerce, and manufacturing).
3.4.2	Construct a chronological explanation of key people and events that were important in shaping the character of Washington, DC, during the 18th, 19th, and 20th centuries.
3.5	Students draw from historical and community resources to organize the sequence of local historical events and describe how each period of settlement left its mark on the land.

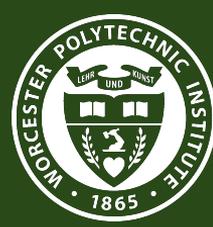

DCPS Grade 3 Mathematics:

1.1	Developing understanding of multiplication and division and strategies for multiplication and division within 100
1.2	Developing understanding of fractions, especially unit fractions (fractions with numerator 1)

- Lesson overview
- Follow DC Public school 3rd grade standards
- We created the pre-visit and post-visit activities
- Sponsor will create video and live program

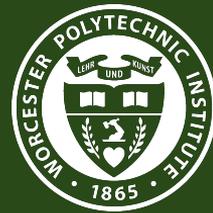

Pre- and Post- Visit Activities

- Teachers can choose from 3 pre-visit activities and 3 post-visit activities.
- Pre-visit materials create excitement.
- Post-visit materials act as review.
- Pre-visit and post-visit activities are optional.

Then and Now

WHAT DOES THIS ITEM REMIND YOU OF?

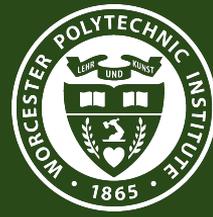

Click one of these! ↓

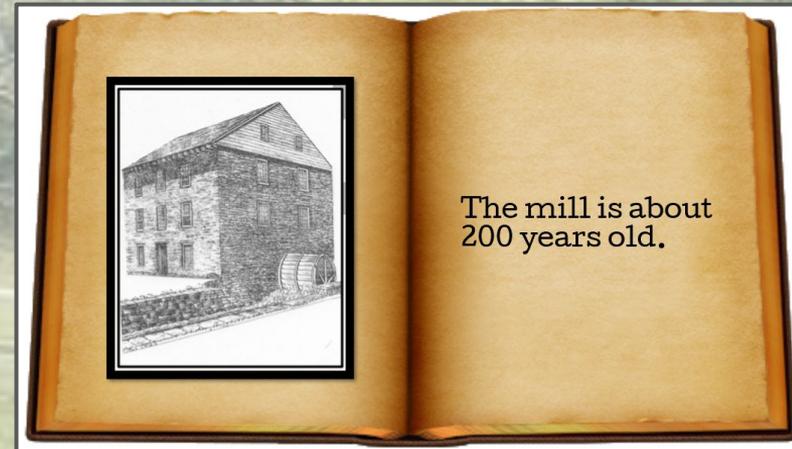

- Pre-visit activity
- Synchronous PowerPoint
- Compare objects from the 19th century to things people use today

A Tiny History of Peirce Mill

- Pre-visit activity
- PowerPoint that resembles storybook
- Discussion questions

Peirce Mill Vocabulary

Craftsman Fill in the Blank 1:

The iron tool was broken but the _____ managed to repair it.

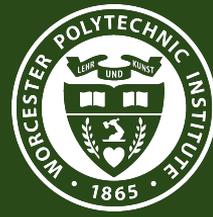

Word Bank:

- Blacksmith
- Cooper
- Mason
- Millwright
- Wainwright

- Pre-visit activity
- Synchronous PowerPoint
- Students learn vocabulary words relating to Peirce Mill and then fill-in-the-blank

Peirce Mill Jeopardy

- Post-visit activity
- Synchronous PowerPoint
 - Moderated by teacher or ranger
- Intended to reinforce topics covered during the virtual field trip

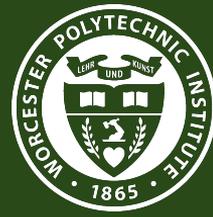

Peirce Mill JEOPARDY

History	Mill Words	Economics	Evans System
<u>100</u>	<u>100</u>	<u>100</u>	<u>100</u>
<u>200</u>	<u>200</u>	<u>200</u>	<u>200</u>
<u>300</u>	<u>300</u>	<u>300</u>	<u>300</u>
<u>400</u>	<u>400</u>	<u>400</u>	<u>400</u>

At-Home Scavenger Hunt

Peirce Mill Home Scavenger Hunt

Find something in your house that the question describes! Draw and write the name of it. If you can't find it, you can draw something you think of. How many were you able to find at your house?

- A smith makes things out of metal. Can you find something made of metal?

- A chandler makes candles. Can you find a candle?

- A cooper makes buckets and barrels. Can you find an object that holds things?

- A mason builds stone walls. Can you find something made of stone?

- Can you find something in your house made of corn?

- Is there anything at your house that grinds food?

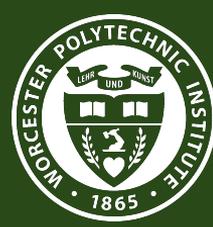

- Peirce Mill is made of wood. Can you find something made of wood?

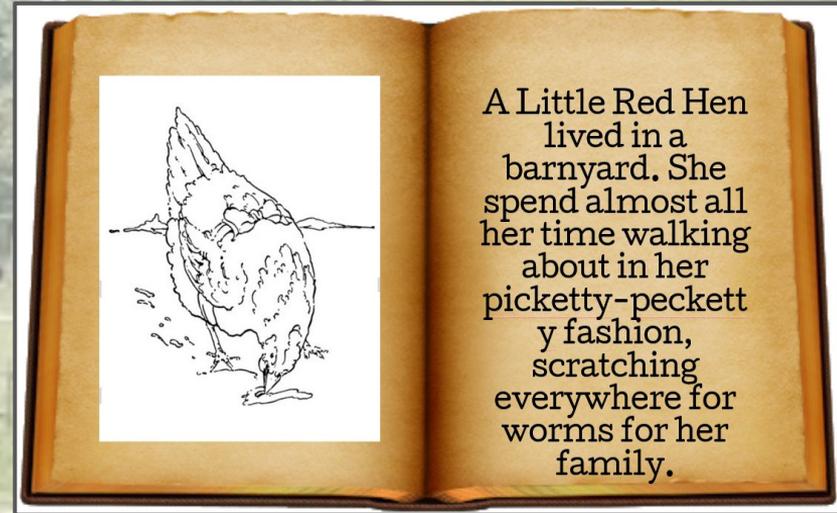

- Post-visit activity
- Synchronous or Asynchronous Worksheet
- Compare and contrast objects
- Provides prompts

The Little Red Hen

- Post-visit activity
- Synchronous or Asynchronous
PowerPoint, storybook format
- Has discussion questions
- Fulfills fable requirement

Younger Elementary Students

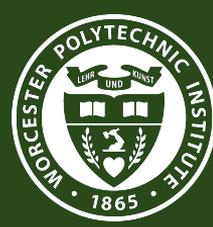

Older Elementary Students

Troubleshooting

Common Troubleshooting Issues

After Program Tips

- Compiled tips from interviewees training materials sent by materials
- Received distance learning materials from Grand Teton, Acadia, and Glacier National Park

Recommendations

Programs Must be Engaging and Interactive

Engagement

- Use of costumes and props
- Embed videos and images into PowerPoints to change pace

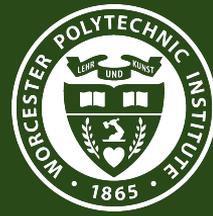

Interactivity

- Question and Answer
- Chat (for older students)
- Chants, songs, and dances

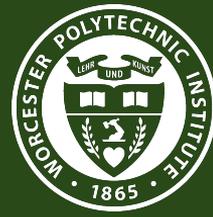

Allow the Teacher to be the Moderator

1. Teachers should moderate programs.
2. Rangers act as guest speakers.
3. Rangers should be flexible.

Pre- and Post- Visit Materials Should be Supplementary

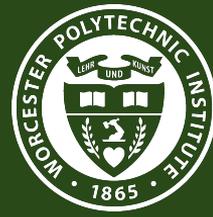

- Activities enrich the live programs.
- Teachers decide what works best.
- Students may not always complete pre-visit material.

Keep the Technology Simple

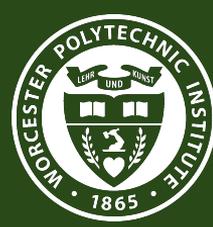

- Let the content drive the program.
- Build interactivity into program itself.
- Avoid multiple logins for students.
- Have a backup plan.

Run Programs with Two Rangers

- Ranger A: Present in front of camera
- Ranger B: Work behind the scenes

Programs can be run with one ranger; however, there are more pauses while they work with the technology.

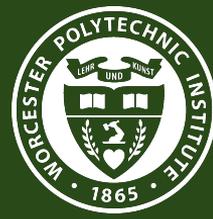

A ranger at Acadia National Park leading a distance learning program.

Software and Technology NPS Should Consider for Adoption

Green Screen Technology

Benefits:

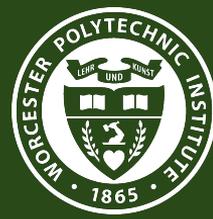

- Standing presenter can be expressive & energetic
- Can physically reference green screen
- Less reliance on screen share
- Can better utilize props
- More options for activities

Implementation:

- Software has a huge upfront learning curve
- Park staff has to devote lots of time to learning software
- Requires physical space and proper lighting
- Requires at least two computers or monitors

What is Xsplit Broadcaster?

Xsplit Broadcaster

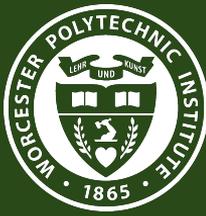

- Live streaming and recording software
- Green screen capabilities
- Approved for use by NPS

Features:

- Compatible with other video conferencing software
- Chroma Key (Green Screen management)
- Stream Management features
- Video recording and editing

Xsplit Broadcaster UI

What's it like to live on Mars?

NASA is now planning for a mission to Mars, which is slated for the 2030s. This could be you!

The idea of living on Mars has been a staple of science fiction since the 19th century, when American astronomer Percival Lowell speculated that the channels on the Red Planet were really ancient canals built by intelligent extraterrestrials. But if this sci-fi dream were to ever become reality, what would it be like to actually live on Mars?

Research the atmospheric conditions of Mars. Is it suitable for humans to live? Record your response and share what it would be like to live on Mars.
