

Where does Zimbabwe import electronics from?

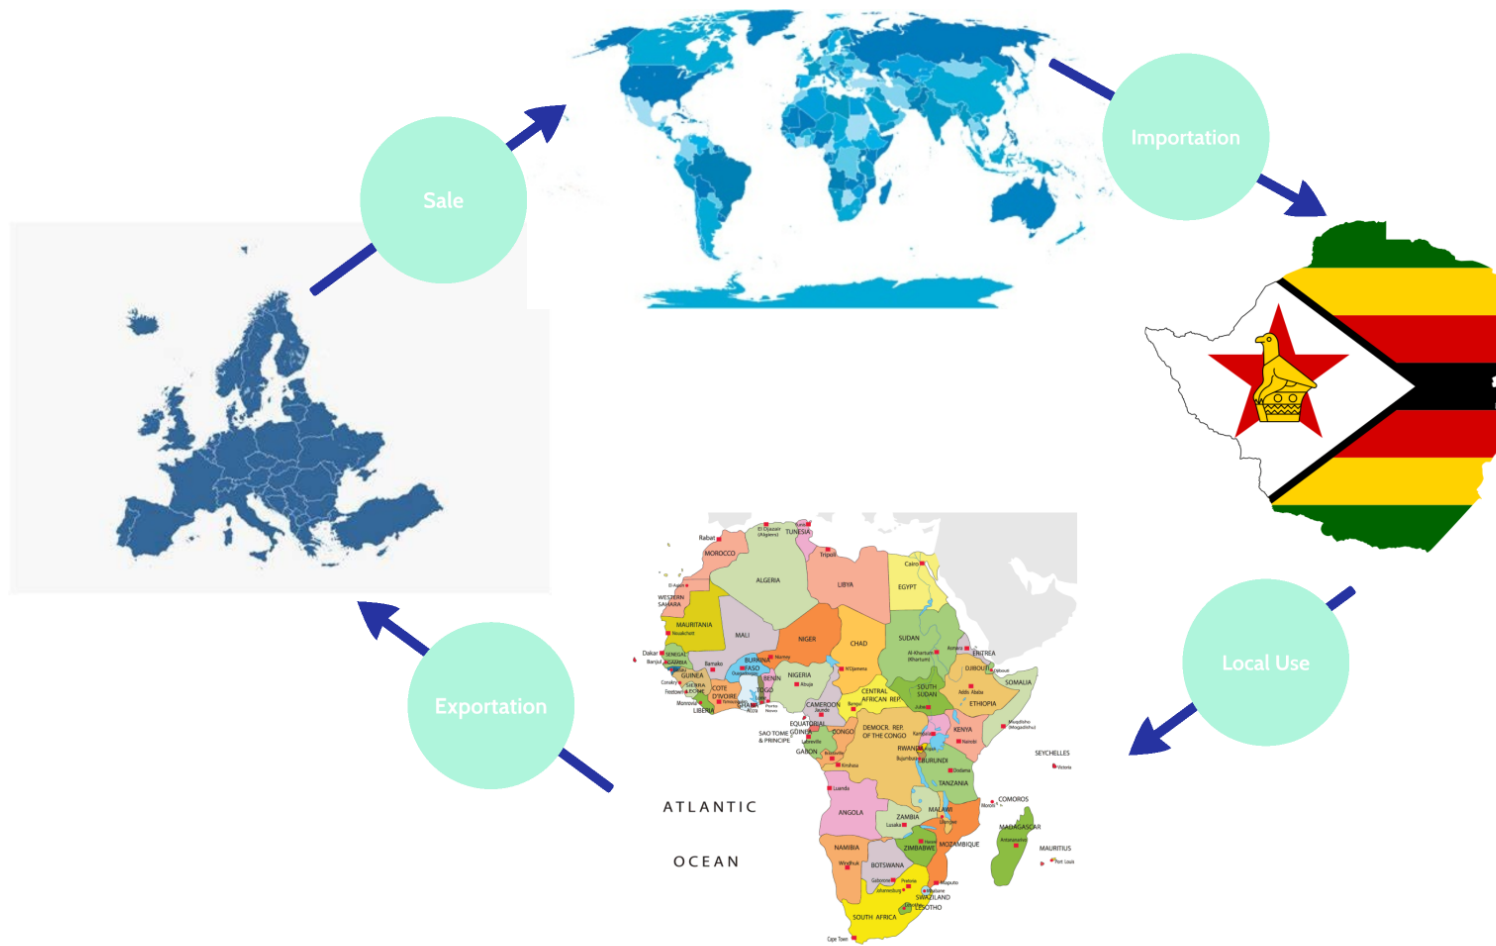

Global

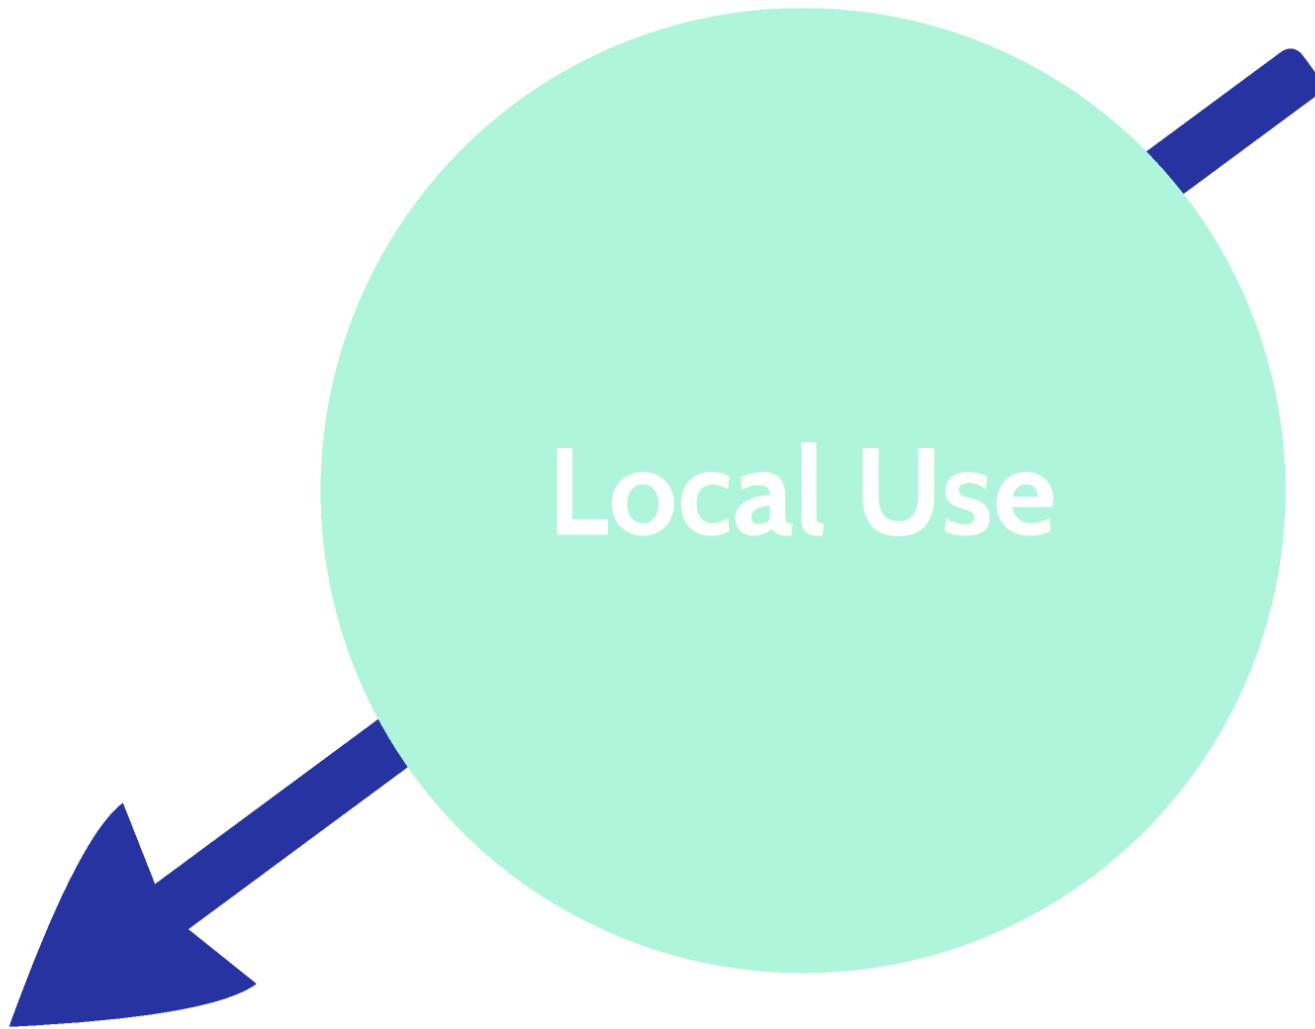

China

Major Manufacturers

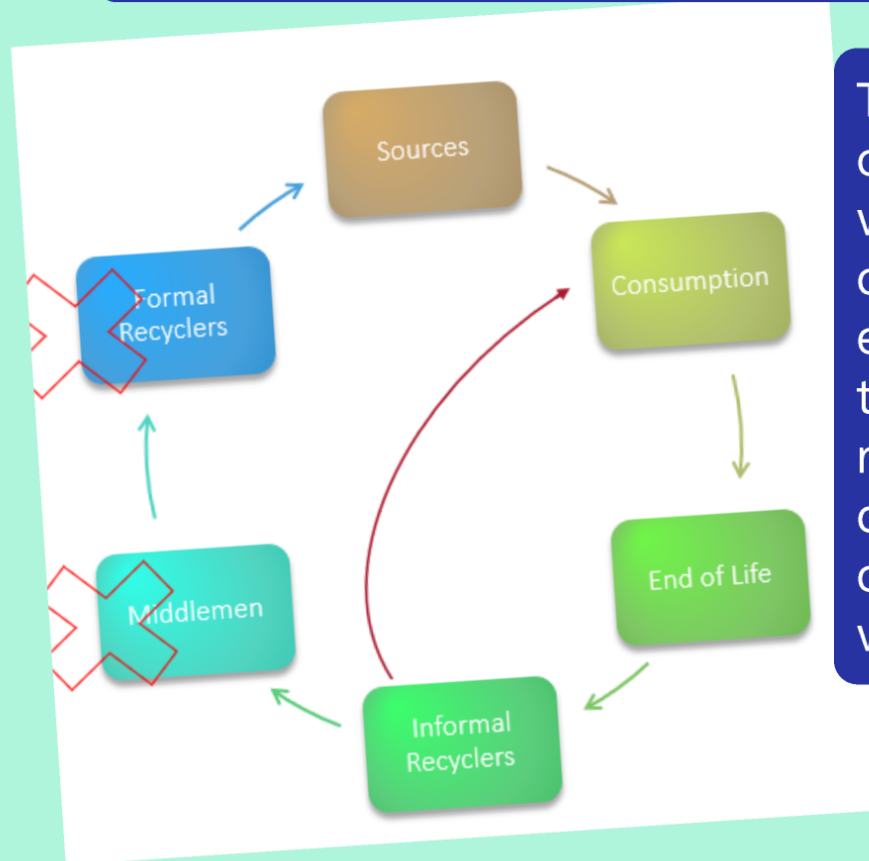

Local Use

- Buy new or used
- Use daily or semi-regularly
- Repair OR
- Dispose of in domestic trash

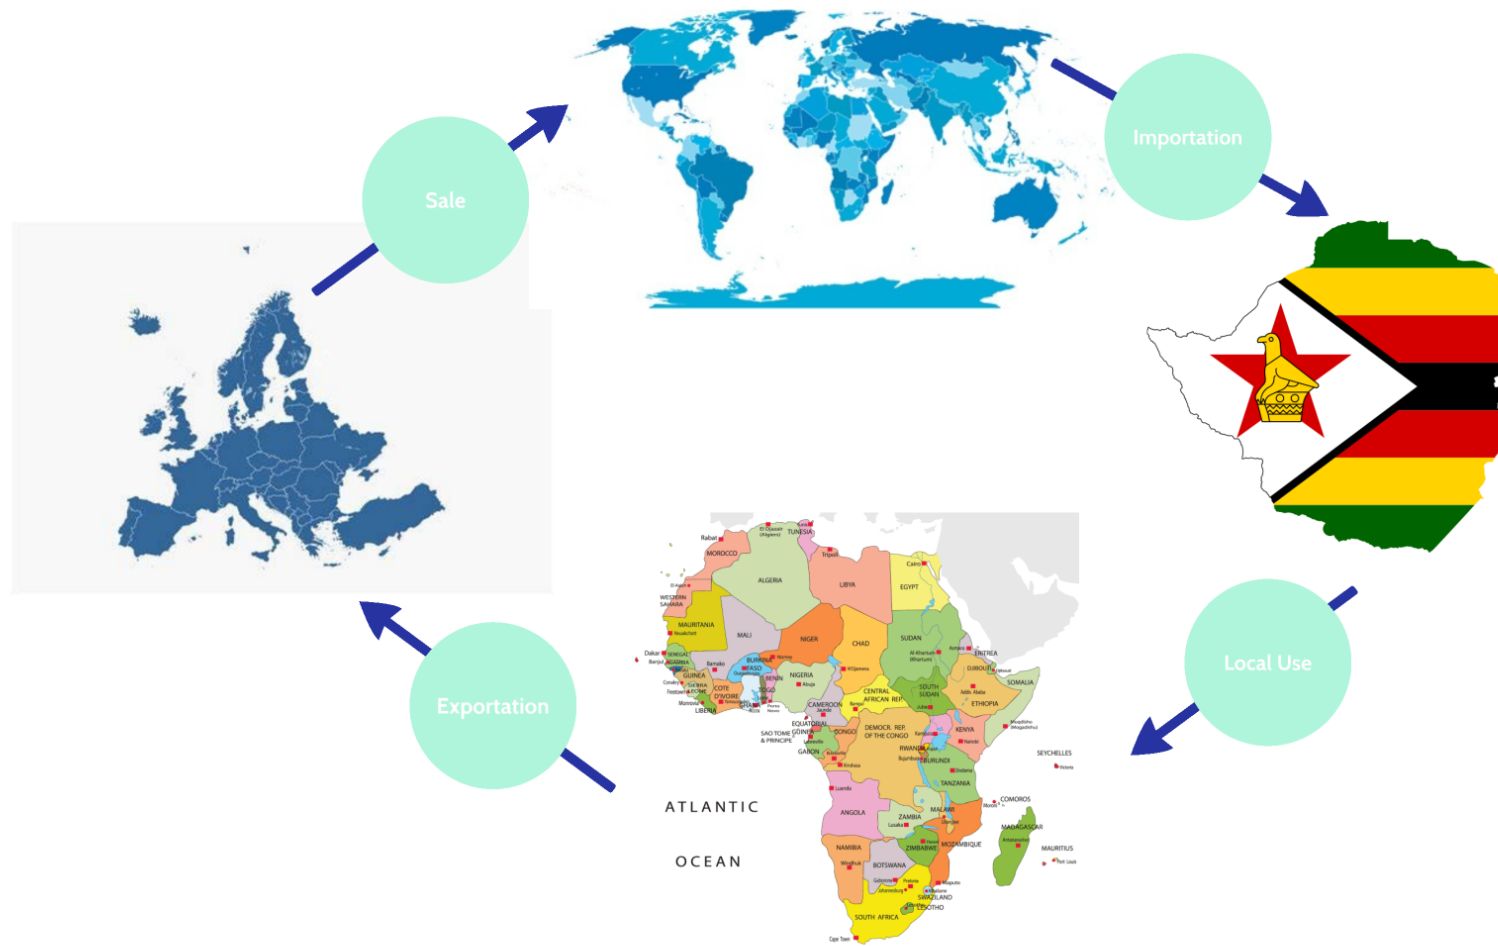

Recycling and Repair Goals

This image depicts the cycle of consumption and disposal of e-waste currently in place. The use of middlemen leads to exportation of goods. The goal is to use informal recyclers and repairers to provide useful devices to be sold back to consumers, keeping the value within the country.

Local Use

- Buy new or used
- Use daily or semi-regularly
- Repair OR
- Dispose of in domestic trash

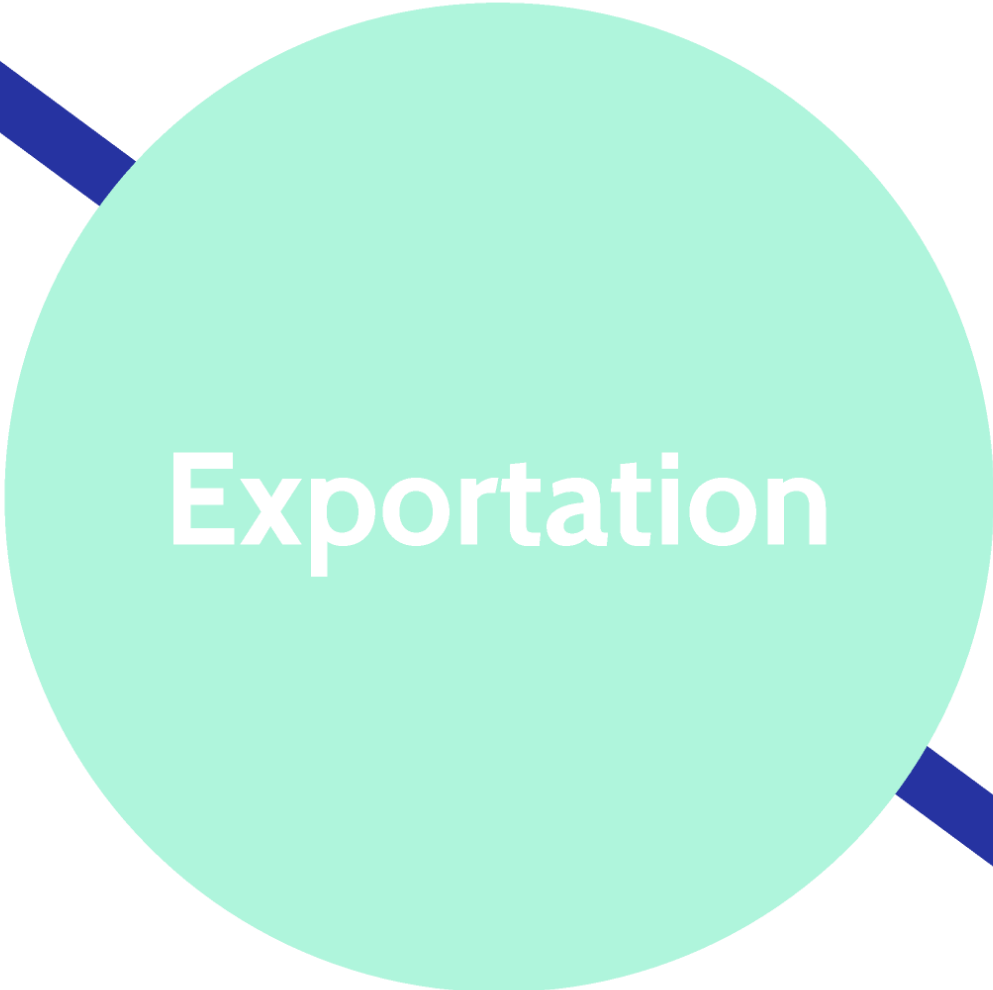

Exportation

Local Use

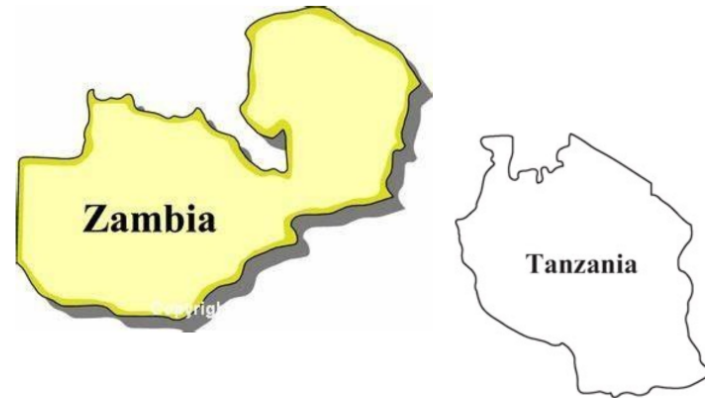

Exportation

Exporting

- E-waste gets exported from Zimbabwe to Zambia and Tanzania
- Sold to middlemen and brokers
- Value leaves Zimbabwe with the e-waste and devices

Tanzania and Zambia are two countries located in Africa
