

CORE GAME USER EXPERIENCE PROTOTYPE

CORE Security and WPI Joint Project

Project Goal

Take the techniques that make games easy to use and apply them to professional security software.

Core Impact Professional

Network Security
Penetration testing:

- ◉ Ethical Hacking
- ◉ Scan and attack a computer network to discover vulnerabilities
- ◉ By Experts for Experts...

Network RPT

- 1 Network Information Gathering
- 2 Network Attack and Penetration
- 3 Local Information Gathering
- 4 Privilege Escalation
- 5 Clean Up
- 6 Network Report Generation

One-Step

- * Network Vulnerability Test
- * Vulnerability Scanner Validator

- Network RPT
- Client Side RPT
- Web Applications RPT

| Name | IP | OS | Arch |
|-----------------------|------------|---------|------|
| Visibility: Root (1) | | | |
| Network: 10.0.5.0 (1) | | | |
| localhost | 10.0.5.129 | windows | i386 |

Module Output

The module hasn't reported any output yet. You can see more information in the [Module Log](#) window.

Network Information Gathering

Module Properties

Brief This module performs automatic information gathering in a network range.
Category RPT/Network RPT
Author [CORE Security Technologies](#)
Version 96039

Description This module helps you perform information gathering automatically. The module will detect active hosts in a network range, identify their operating system and available services. This module utilizes the following modules from the Information Gathering module folder:
For Network Discovery

Game UX Techniques

- Direct manipulation

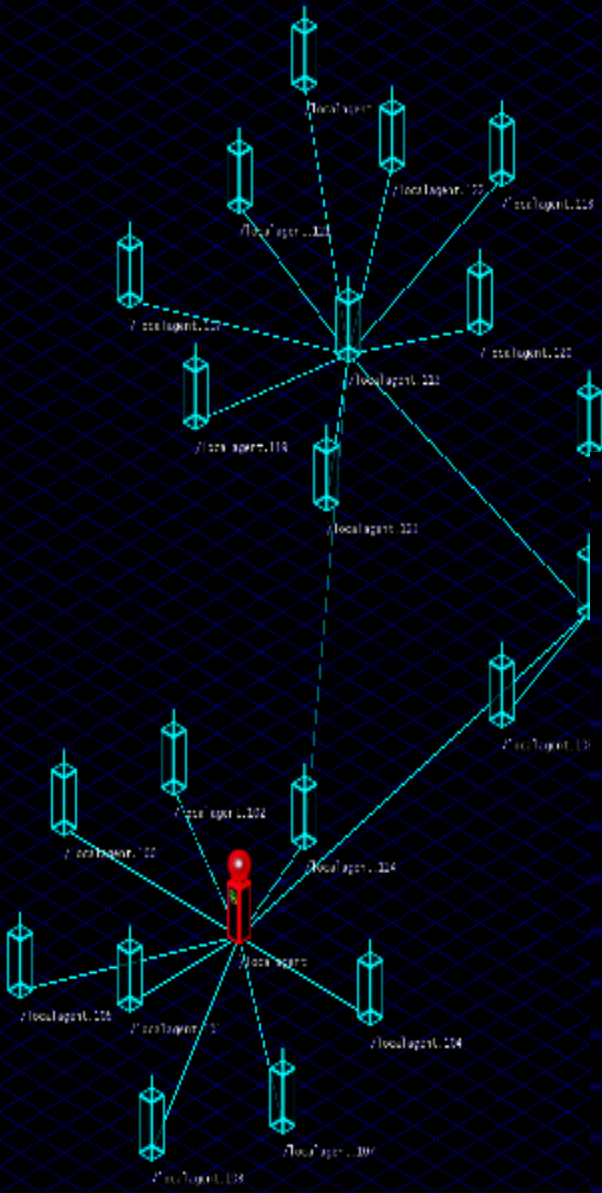

- Sound and animation

- Context-relative information

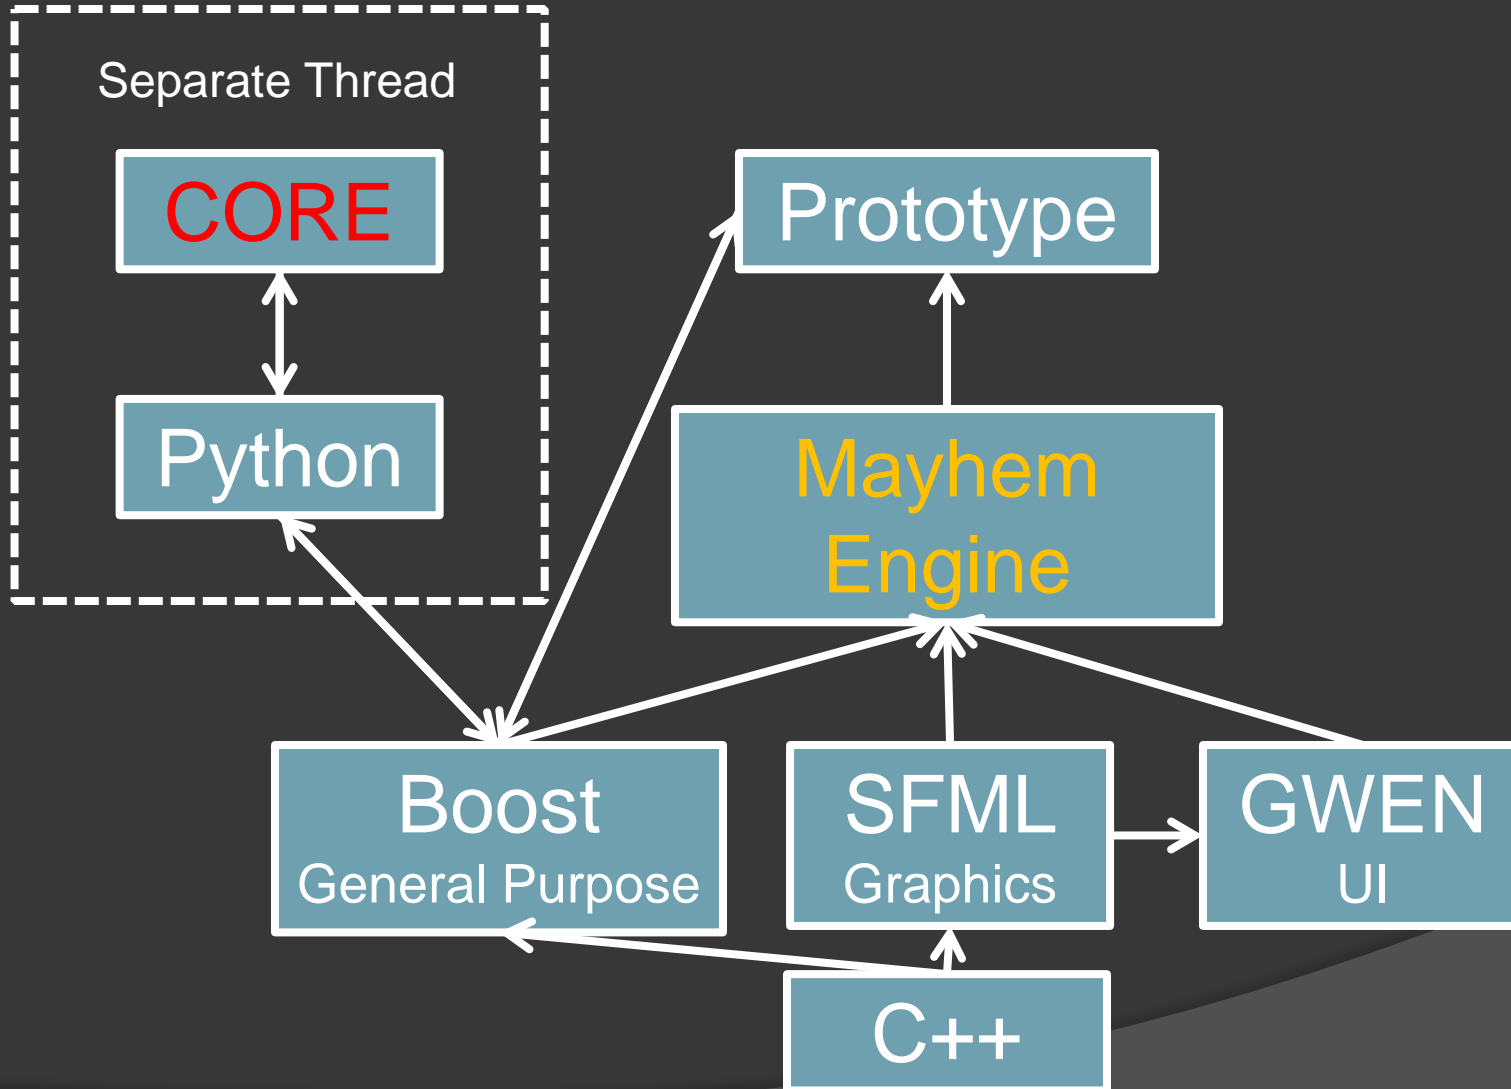

Game UX Techniques

- Spatial network layout

Architecture

Usability Study

Does our prototype perform better than the existing interface?

- ⦿ Control group: Core Impact Pro
 - ⦿ Test group: Prototype
- 1) Network security task
 - Scan a network
 - Attack a machine
 - Discover a new network
 - 2) Subjective survey questions
 - What did they think about the interface

Usability Study

| Interface | Test Score | N | Standard Error |
|------------------|------------|----|----------------|
| CORE Impact Pro | 9.07 | 15 | 0.702 |
| Mayhem Prototype | 11.19 | 13 | 0.477 |

Independent t-test (2-tailed):

$P = 0.0225$

| Interface | Subjective Survey | N | Standard Error |
|------------------|-------------------|----|----------------|
| CORE Impact Pro | 12.5 | 15 | 2.465 |
| Mayhem Prototype | 16.8 | 12 | 1.011 |

Independent t-test (2-tailed):

$P < 0.0001$
