WORCESTER POLYTECHNIC INSTITUTE

SALTONSTALL TO BE COMMENCEMENT SPEAKER

PLACEMENT OFFICE REVEALS JOB PROSPECTS FOR SENIORS

Institute to Award 197 Degrees at Graduation Ceremonies, Sunday June 18

Alumni Contacted To Aid Placement Drive Campaign

During the past ten years, the years during the war and the period immediately following, little difficulty was had in placing the Senior Class in positions of engineering. With the advent of graduation, practically all the Tech men were placed. Last year, however, the field became saturated and the ease in job placement disappeared. Industry was mainly interested in men of experience, thus presenting a problem for the neophyte engineer. Even so, of the men in the Class of '49, Tech placed 80%, an extremely high percentage when viewing the national average of 50%. This year, the situation appears even more discouraging. This is realized when one notes the decrease in companies interested in Tech men at the present time. Only fifty concerns sent personnel men to interview prospects this year as compared to sixty-five last year and one hundred in the past. Even with these difficulties, the Placement Office expects to find positions for at least 50% of the Seniors. This percentage is high when one realizes that the present national average is only 10-20%. In the past month some encouragement has been received, as a slight upturn has been discerned in Tech placement matters. Some companies, which earlier in the year did not send representatives to the school, are now inquiring about engineering prospects.

5500 Alumni Contacted

Much has been done by Place-

ment to remedy the situation. Definite planning and steps have resulted in a somewhat brighter outlook. One of the ways to fill in placement deficiencies involves alumni cooperation. Notification has been sent to 5500 of the alumni requesting them to present any information they may have in respect to job openings. These notifications are in the form of a double card, one half of which explains the situation to the alumnus, the other half for reply. Already 250 leads have been received and more are coming in all the time. It can be seen what a bountiful source of information these cards can be to the job-seeker. It also can be seen that the present Senior must do more on his own part to obtain a job than he has done in the past.

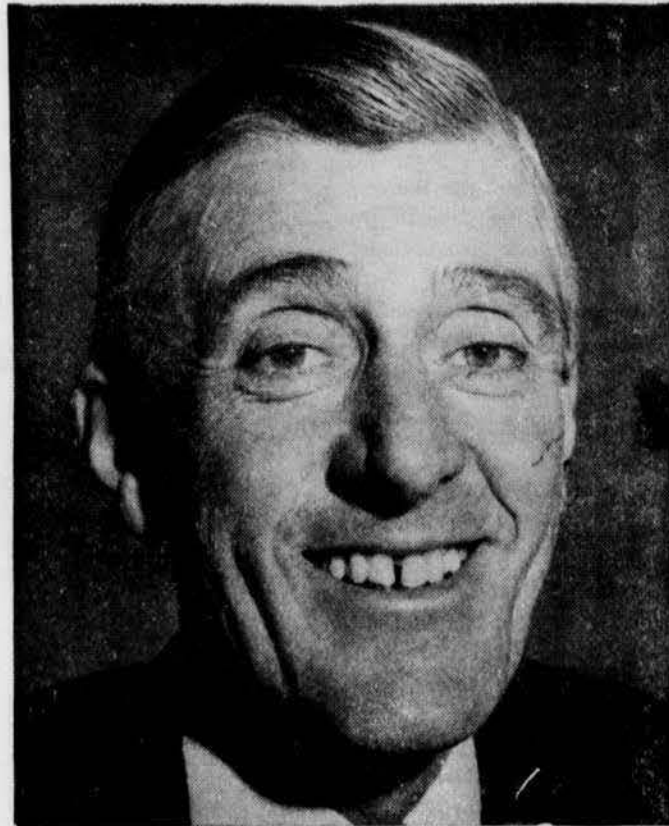

Advanced Study

Outside of industry itself many opportunities are offered the good student. Many fellowships and graduate assistantships are available to the men who can qualify. For those who wish to further their education even more, these possibilities should be investigated. In addition, the openings in government work are numerous at the present time.

Pre-War Conditions

Viewing the overall picture, it seems that the present conditions parallel those of the period around 1938, at which time job opportunities were comparatively difficult to find. The President, the Director of Placement, the Trustees, and the Alumni are all deeply concerned with the problem and are diligently striving to better the situation.

The Commencement Exercises of Worcester Polytechnic Institute will begin on the evening of Thursday, June 15, and will culminate in the Graduation Exercises in Worcester Municipal Auditorium at 3:30 P.M. on Sunday, June 18. The speaker for the program will be the most honorable Senator from Massachusetts and ex-Governor of the state, Senator Leverett Saltonstall. Rev. John V. McKenzie, pastor of St. Matthews Episcopal Church, will deliver the invocation and benediction. The Baccalaureate Service will be held at 11:00 A.M. in the First Baptist Church. Dr. Thomas S. Roy will deliver the address, the title of which is, "For Such a Time As This".

SENATOR LEVERETT SALTONSTALL

The annual formal Senior Dinner Dance will be held on Thursday, June 15, 7:00 P.M., at the Wachusett Country Club. Neil Crowley is Chairman of the affair, which traditionally begins the week's program. The music will be provided by the Country Club Orchestra. The patrons will be Professors Warren Zepp and Robert Wagner.

On Friday, June 16, commencing at 3:00 P.M., the Class Day Exercises are scheduled. The program is being handled by Richard McMahan. Among the events of the program are the skit done by the Class of '50, and the presentation of the Class Gift, by Sumner Herman. Richard McMahan will give the Class History, and Tejinder Chaddha will give the Class Oration. The Trees and Ivy ceremony will be held outside if the weather permits.

Following these exercises, the President will hold his reception for all graduates, their families, and the faculty members and their wives. The reception is in Sanford Riley Commons from 4:30 to 6:00 P.M. Music will be provided for dancing.

The next day, which is designated as Alumni Day, will provide time for the conducting of Alumni business affairs and reunions. The Alumni groups have planned a very extensive program for the day, to which all Seniors are invited. Among the events will be a costume parade, picnic, and inspection trips. The Alumni have invited all members of the graduating class to be their guests at the Alumni dinner at 6:00 P.M., Reunion Dance following.

The next day, Sunday, June 18, will be that long-awaited Baccalaureate and Commencement Day. In anticipation of this, Dean Swan requests that all Seniors be present at the Worcester Memorial Auditorium at 1:00 P.M. on Monday, June 5, for a rehearsal. John Brierly, President of the class, will appoint ten members of the undergraduate body to assist Dean Swan, who is Chief Marshal of the Baccalaureate and Commencement Exercises.

Mr. Philip Morgan, President of the Morgan Construction Company and a member of the Board of Trustees, will award the graduation prizes. During the afternoon, Bachelor of Science, Masters and Honorary degrees will be presented. The final event of the program following the awarding of Degrees will be the President's farewell message to the graduating class.

PRESIDENT CLUVERIUS AND PROF. DOWNING HONORED

At the final general student assembly of the year, Tau Beta Pi, national honorary engineering fraternity, conferred honorary membership upon two members of the administration and faculty of Worcester Polytechnic Institute. The men so honored were President of the Institute Wat Tyler Cluverius and Donald G. Downing, Professor of Mechanical Engineering.

The citations were presented by Robert A. Busch, President of the student chapter of Tau Beta Pi.

Tau Beta Pi has as its object "to mark in a fitting manner those who have conferred honor upon their Alma Mater by a high grade of scholarship as undergraduates, or by their attainments as alumni; and to foster a spirit of liberal culture in the engineering colleges of America."

President Cluverius graduated from the United States Naval

Academy in 1896. He then served with distinction with the fleet, rising to command the cruisers *Baltimore* and *Seattle*, and the battleships *Wisconsin* and *West Virginia*. Promoted to the rank of Rear Admiral in May 1928, he served at sea as Commander of the Second Battleship Division, Chief of Staff of the United States Fleet, Commander of the Fourth Cruiser Division, and Commander Base Force, United States Fleet. Prior to his retirement, Admiral Cluverius held posts at the Naval Academy and the Naval War College, and commanded the New York, Philadelphia, and Norfolk Navy Yards, and the Great Lakes Training Station.

Rear Admiral Cluverius became President of the Institute on August 24, 1939.

Among other decorations, Ad-

National Delegates To Initiate Thirty-six Electrics On June 2

On Friday, June 2, Alden Memorial will be the scene of the Eta Kappa Nu installation. Thirty-three charter members and three faculty members are to be initiated at this time by delegates from the national chapter.

Among the guests attending the initiation will be the national president, vice-president, and executive-secretary, along with members of the M.I.T., Univ. of Connecticut and Northeastern chapters.

This chapter of Eta Kappa Nu, the fiftieth in the country, will be designated as the Gamma Delta chapter. It is composed of senior electrical engineering students in the upper third of their class, and

of juniors who are in the upper fourth of their class.

Professors Morgan and Grogan and Mr. Kennedy are the three faculty members who will be initiated at this time.

After the installation is completed, a banquet will be held in Sanford Riley Hall at which Stanley Friedman is to be the toastmaster. Admiral Cluverius, Deans Roys, Howe, and Swan will be present at this banquet.

At a recent election of this chapter George Saltus was chosen as president, Roger Wye as vice-president, and Roger Swanson as treasurer. Gerry Atkinson is the corresponding secretary, and Andy Andersen is the recording secretary.

THE YEAR IN REVIEW

The Skull tapped four members of the Class of '50: Paul J. Brown, John T. Cocker, Richard H. McMahan, and James H. Meiklejohn, Jr.

Professor Gleason H. MacCullough culminated 31 years on the Worcester faculty by rising to head the Mechanical Engineering department, succeeding Dean of Engineering Francis W. Roys, who took up additional administrative duties.

President Wat Tyler Cluverius announced that seventy-nine per cent of the Class of '49 had found employment, and that the percentage of veterans among the Freshmen had fallen to 15%, compared with the all-school average of 47%.

Judges Cobb, Hollows, and Holbrook awarded the silver tray trophy to Sigma Alpha Epsilon for the winning Homecoming Day house decoration.

Halsey Griswold, '51, received the A. I. Ch. E. Scholarship award granted to the chem engine student maintaining the highest scholastic average in his first two years.

Alpha Epsilon Pi for the second consecutive year received the President's General Excellence Trophy, the highest fraternity award, finishing second in scholastics and high on the activity ladder. Sigma Alpha Epsilon was first scholastically, and Theta Kappa Phi finished first in the activities rating.

An active athletic group, failing in their bid for official recognition by the Institute, formed the Boynton Hill Lacrosse Club, headed by Jim Rich, and embarked on a successful season of five wins, one tie, and one loss.

William "Bill" Lynch, popular director of the WPI band, celebrated eighteen years of musical leadership on the Hill.

Jim Britt, noted sportscaster, was the featured speaker at the annual Fall Sports Banquet, at which Don and Walter Kolodne were elected co-captains of 1950 football, Bob Fulmer was named to head the soccer squad, and Dick Zeleny was elected cross-country captain for 1950.

A charter group of 18 Seniors and 12 Juniors in the Electrical Engineering department formed a petitioning group seeking acceptance by Eta Kappa Nu, national honorary fraternity. Stanley Friedman was elected charter President.

At the winter meeting of the Trustees, Dean Jerome Howe commented on the noticeable shrinkage in the applications for the incoming 1950 Freshman class, veterans making up 8% of the group. President Cluverius warned that the high-grade independent college faced stern competition from Federal and state-endowed institutions, and stated that the small college must evaluate and publicize its inherent advantages.

Eleven Tech Seniors were named to *Who's Who in American Colleges*. The men so honored were George Barna, John Brierly, Paul Brown, Tejinder Chaddha, John Cocker, Neil Crowley, David Danielson, Stanley Friedman, Malcolm Horton, Richard McMahan, and Kenneth Muccino.

Sigma Phi Epsilon won the coveted Pi Delta Epsilon Songfest trophy. Led by George Borski, the group comprised Don Jordan, Warren Palmer, Robert Turek, Alan Hansen, Dick Foltz, Frank Mueller, and John Orcutt.

Dick Zeleny broke a sixty year old track record against Trinity when he sped the half mile in 1:59.6.

PERMANENT CLASS OFFICERS

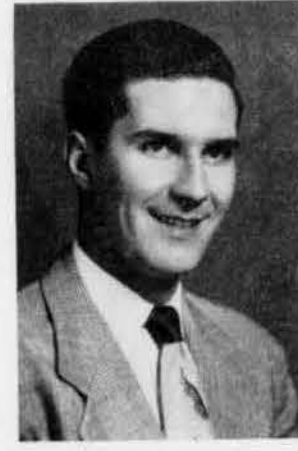

JOHN BRIERLY

The Seniors held their elections of permanent class officers last week, Wednesday, the 24th. John Brierly was elected President; Walther Keyl, vice-president; Lester Reynolds, secretary; Treasurer, Brian Stone, and Historian, Richard McMahan.

Jack Brierly, now the permanent president of the class of 1950, has been president of his class for the past four years. He is a member of Skull, and has been on the Tech Council each of his four years here at Tech. Jack was a Junior Editor on the TECH NEWS staff, and has been active in that organization ever since he was a freshman. Making "Who's Who" is another of his many accomplishments. Jack hails from Worcester, Mass.

"Still water runs deep." Walt Keyl is a quiet fellow and no exception to that proverb. All through his course here at Tech, Walt has been that sort of man who is better known by what he does than by what he says. He has been on the Tech Council during his past three years and is also treasurer of the Interfraternity Council. Walt is also vice-president of both Tau Beta Pi and the A.S.M.E.

WALTHER KEYL

DICK McMAHAN

BRIAN STONE

LESTER REYNOLDS

Lester Reynolds, the permanent secretary, and Brian Stone, who will hold the purse strings, have also been exceedingly active in campus affairs. Both will receive their degree in Chemical Engineering.

Lester is a member of Phi Gamma Delta, of which he was treasurer in his Junior year, and of Tau Beta Pi and the A.I.Ch.E.

Brian Stone, permanent treasurer, is an editor on the *Peddler* staff and has been a member of the band for four years. In the field of sports, he has been on the Lacrosse team and the soccer team for the past three years.

Dick McMahan is another of the permanent Senior class officers who has made "Who's Who". He is a member of Skull and of the honorary Electrical Engineering society, Eta Kappa Nu. Dick was a Junior Editor on the TECH NEWS staff and is a member of Pi Delta Epsilon. He is in Tau Beta Pi and is a member of the Interfraternity Council. He is also a member of Glee Club and Octet, and the Tech Council.

These are the permanent officers of the class of 1950, a class which has set standards that any of the present or future classes will do well to strive to attain.

THE GREEK CIRCUIT

TKP

Tuesday, May 23, Theta Kappa held an informal banquet for the Seniors. Among the guests present was Father David Toomey of Holy Cross College.

The event of the sports year will take place Memorial Day when the First Annual T. K. P. Open Golf Tournament will be held at Juniper Hill, Northboro. Handicaps are being fixed in accord with previous performances by a tournament committee consisting of Hank Richard, Bob La Rocque, and Gerry Atkinson.

The Senior Banquet was held Thursday night at the *Moors* in Shrewsbury. The *Lambda Award* was given to Neil Crowley, of the graduating class. The *Torreador Trophy* was awarded to Joe Gwiazdowski for his outstanding accomplishments in the field of "bullthrowing". Johns Gallagher and Feldsine made the affair a "smashing" success.

PSK

Last week the gang from Phi Sig had an unexpected visitor in the person of Gil Dwyer, the Field Secretary. Gil ran true to form when

he, like all the other college graduates, admitted that he longed to return to the happiest days of his life ... fraternity days.

After the smoke cleared from the elections at Phi Sig, a slate of capable officers was at the helm. Bill (Commodore) Dewey was elected President, Herb Hayes, Vice-President, George Joest, Secretary, John Galizia, Sentinel, and Bob Baker, Treasurer.

Last week a party and picnic was held in conjunction with the Soph Hop. Knowing that this was the last chance this year for self-expression, the boys took advantage of every opportunity.

SAE

Exhilarated by their two softball victories, the boys from 6 Humboldt turned to the serenity of nature. Caruncle Park in Oxford was the scene of a barbecue, softball game, and a general good time. The boys were also treated to cigars by Bob Atherton. Spring took hold of the fair lad, and with the ease of a Lothario he very ably deposited his fraternity hardware on Ruth Steinbright.

SIGMA XI ELECTS

Professor Bridgman New President for Honor Society

Last Monday the Society of the Sigma Xi held their Annual Business Meeting at eight o'clock in the Janet Earle Room. Officers that were elected for the coming year include: President, Dr. W. B. Bridgman; Vice-President, Professor C. G. Johnson; Treasurer, Professor J. N. Petrie; and Secretary, Professor F. S. Finlayson. Annual reports were also presented at the meeting.

After the meeting, Professor L. J. Hooper gave a lecture on "The Fundamental Aspects of Cavitation". He illustrated the phenomenon of small vapor bubbles causing erosion in hydraulic machinery, with colored slides and movies. The new initiates taken into associate membership on May 1, were Robert R. Atherton, Richard G. Beschle, Walther A. Keyl, Martin Nisenoff, and Hugo S. Radt.

Tech Romps Over Lowell Tech 17-2

TKP DOWNS ATO TO TAKE CROWN IN IF SOFTBALL

ATO, SPE to Battle for Second Place While TC, PSK Fight for Fourth

In the highlighting game of the past week, T.K.P. captured the I.F. softball trophy by defeating A.T.O. by a one run margin, 5-4. It was T. K. P.'s eighth win in as many outings, while the loss was A.T.O.'s first in seven games to date.

A.T.O. started the scoring by tallying one run in the very first frame. They counted twice in the second inning, and once more in the fifth to round out their scoring. T.K.P. scored one run in the second, and with the aid of a four run outburst in the fifth, went on to victory. Bill Mehalick once again hurled the Theta Kap forces to the win allowing but four hits, while Walt Keyl permitted nine hits in dropping his first game. Mehalick has six victories and no losses to show for the season; Keyl has six wins and one loss with one game remaining.

To date, the second place position in the standings is still undecided as both A.T.O. and S.P.E. have lost one game, and have yet to meet each other. This game may well prove the deciding one as far as the winner of the runner-up position is concerned, although Sig Ep is at the disadvantage of yet having to play P.S.K. Phi S'g has not been too successful to date, but could prove troublesome for the boys from Sig Ep.

With A.T.O. and S.P.E. assured of at least a second or third place position in the standings, the fight for fourth looms between T.X. and P.S.K. T. X. has finished its regular season with a 4-4 record, while Phi S'g, with a 3-4 record, has one game remaining on its schedule. This game then will undoubtedly decide the holder of the fourth place spot in the first division.

Team records for the I.F. softball competition are as follows:

T.K.P.	8 0
A.T.O.	6 1
S.P.E.	5 1
T.X.	4 4
P.S.K.	3 4
P.G.D.	3 5
S.A.E.	3 5
A.E.P.	1 7
L.X.A.	1 7

Boynton Hillers Fight Uphill Battle to Defeat Nichols 8-4

Rich Leading Scorer; Defensemen Sparkle As Team Wins Eight

The prospects looked dark to Tech rooters in the first seven minutes of this game. Foster and Crossman, attackmen of Nichols, both broke through the Boynton defense to tally. Crossman was assisted by the Nichol's center, Harrell. It looked as if the Hillmen were going to lose their third game out of ten starts. But then Jim Rich came to life, wormed his way toward the crease—the circle around the goal—and scored unassisted. Thus began the Boynton march. In the last minute of the quarter "Shorty" Ellsworth connected with a fast grass-cutting shot. He was followed by attackman George Seidel, for center Al Foss took the ball on the faceoff. The first period, that looked so bad at the start, ended with the B.H.L.C. ahead 3-2.

The Boynton Hill spirit, play domination, and teamwork told the score in the remainder of the game. With the end of the first half came a score of 6-2; for Al Foss scored with help from attackman Don Jordan. Jordan scored with aid from Ellsworth, and Jim Rich scored again unassisted.

Both teams stepped down the pace in the third period; Foster of Nichols was the only man to score. Nielsen of Nichols opened the fourth period with the final Nichols goal. Knowlton put the Boyntons 3 ahead on an assist from Rich, and Rich scored his third with help from Ellsworth ending the game 8-4, B.H.L.C.

Too much can not be said for the defensemen of this game. Bretthauer,

Auerbach, Mal Horton, and the second defense of Stone, Mayo, and Stanton did an excellent job. The importance of the defense in play domination, steals, ball scrambles, and clears to the attack is a telling factor.

The scoring as of the Nichols game has been as follows: Rich, 21 goals; Ellsworth, 15; Foss, 14; Jordan, 9; Knowlton, 6; Campbell, 5; G. Edwards, 5; Seidel, 2; Stanton, 2; and Lamphear, 1.

BOYNTON HILL

SOPHS DEFEAT FROSH IN INTERCLASS TRACK MEET

The sophomores have battled the freshmen right down to the last event in the race for the Goat's Head. By taking the interclass trackmeet the final and last event will decide which class will gain possession of the trophy. The future looked mighty dark for the sophomores after they dropped the basketball game to the freshmen but since then they have swept every event and now the winner of the interclass tennis match will win the Goat's Head.

Zeleny helped pace the sophomores to their victory by taking first place in the mile and a tie for

first in the 440. Howell tied Zeleny in the 440 to divide first and second points between the sophomores. Willard and Palmer took first and second place in the high hurdles while East and Palmer took first and second place in the high jump.

Ernst outvaulted Palmer while Madigan edged out Sullivan in the hundred yard dash for the only first places for the freshman. Post placed second in the mile run to take in some of the scarce freshman points.

The outcome of the first day's events ended with the freshmen on the short end of a 46-24 score. The freshmen did not have enough men to finish, so as a result they had to forfeit the rest of the meet. As it stands now the tennis match will decide the winner between the classes. The freshmen are really going to have to press against the hard-fighting sophomores in order to end up victorious in the competition.

*KAMINSKY PITCHES 6 HITTER TO WIN SEASON'S LAST GAME

While Phil Kaminsky was twirling a masterful six hit performance on the mound, the Engineers unleashed a tremendous batting attack that combed two Lowell pitchers for a total of 18 hits. When the smoke of battle had cleared, the scoreboard showed Tech on top by 15 markers and a final season's record of 5 wins against 4 defeats. After being handcuffed in two successive outings by a couple of the best collegiate hurlers in New England the Macmen's bats came to life with a vengeance, fattening starved batting averages no end.

Kaminsky was in complete mastery throughout with the exception of a shaky fourth inning in which Textile scored their only runs. The Engineers came up with three big uprisings, scoring 6, 4, and 6 runs to make a comfortable margin and allow Kaminsky to breeze along in fine style and gain his second victory of the year. Senior Hal Schmucki paced the attack with a single and two doubles as every man collected at least one bingle in the big melee. In the first inning Tech showed its intentions clearly when Steward singled to right as leadoff man and scored a minute later as Ferrari crossed up the Lowell defenses by rolling a long triple to left center. Just as a little insurance the McNulty men added six runs in the third as Ferrari walked, advanced on Shebek's single and then both romped home on Whitey Carlson's drive to left. Then combining two Lowell errors, a walk, and singles by Schmucki and Stewart, the Engineers pushed across four more runs.

By this time Kaminsky was cooled off and a bit winded and seemed to have lost his stuff when three hits, one a roundtripper by Canova, a miscue and walk seemed to put Lowell right back in the ballgame. However, just as fast as he had lost it, Phil seemed to regain his magic as he bore down to fan the next two and get the third batter on a fly with the bases loaded. From there on in he allowed but two hits over the remaining five innings.

The red hot bats of the Polymen came to life again in the fifth after Brown had reached on an error. Schmucki doubled, Kaminsky singled, Thompson singled, Shebek singled and before reliever Swanson could put out the fire, four runs were in.

Swanson succeeded in taming the hostile bats for two more frames before he was solved in the eighth when another explosion occurred, this time good for seven hits and six markers. The Engineers, led by Shebek and George with two hits

apiece in this frame, proceeded to make it a scorer's nightmare and the largest tally of the year. The only double play of the game occurred in the ninth, when with two on and no out, Cross speared Canova's grounder, stepped on third and fired to first to complete the play.

The all around play was very good as well as the hitting on which Mike Shebek went whole-hog and collected four, all solid one base smashes. Were it not for their hard luck in drawing Niles of Tufts and Hurst of A.I.C. as opposing hurlers the record would be much better than the little better than .500 one at present and it would be a much better indication of the club's actual capabilities.

Remember The Sports Banquet

For That Extra Extra-Curricular Activity jay's corner

A.I.Ch.E. Picnic To Take Place This Saturday

The third annual A.I.Ch.E. Picnic has been planned and the date set. Festivities, which will begin early Saturday afternoon on June 3rd at Lunt's in Sterling, include a softball game and a banquet later in the evening.

The softball game will see the graduate students and seniors pitted against the underclassmen. With Hiram Phillips umpiring and Doc Masius keeping score, the game promises to be an interesting one. The extra added attraction—beer—will be placed on third base. In years past it has become a custom to allow everyone to steal third. Of course there is no doubt in anyone's mind who the victors will be.

FISHER PICKED BY GLEE CLUB

The W. P. I. Glee Club held its Spring elections, and graduating president Art Nied turned the gavel over to Art Fisher.

Art has behind him three years in the Glee Club, and just as long in the Octet, that elite group of beardless barbershoppers. He helped his lung-power along with varsity track, IF sports and cheerleading in his Sophomore year.

Vice-president, retained in that office, is Stillman Mackay. Bud, too, is a three-year Glee Club and Octet man, Soccer team manager, track letter-man and IF sportsman.

The office of pencil-pushing Secretary went to "Max" Brawn, and Dick Englund became Librarian, rising from Assistant in that office. His aide and replacement is Tom Bradley.

The Glee Club will wind up its year's activities by waxing a disc for the school movie, hoping, no doubt, to lure here in the fall a couple of first tenors.

TECH REMINISCENCES

Granted, the ol' Institute hasn't changed much in forty years, Mondays through Saturdays in particular. Let's go back through the channels of the annals and see what the TECH NEWS had to say for itself.

Firstly, nowhere was there any trace of a Spring Formal in 1911. I guess women were rather scarce in those days, too. . . . Was every man a "grind". That's what they called them in those days; that was back when they used to stable horses in Boynton Hall.

Forty years ago last week, Professor Duff gave a physics colloquium on "New Theories in Light". Now that's one thing that certainly hasn't changed. Years of men have never seen the light in their fourth term. P4 is still Worcester's answer to the beartrap.

The Aero Club had their glider almost built and ready to fly. Right away, that smelled like a plot to crack out of the Institute. The glider? it flew . . . like a lame duck. What ignominy! to be caught flat-

footed on the grass by a campus cop riding a pogo stick. The fugitives were ordered to take physics again, which is the equivalent of an extra year on any sentence.

At Ware Pratt's suits were fifteen and twenty bucks per. I bought a twenty buck suit the other day; the salesman said it would laugh at hard usage. It did; it split its sides. All-wool, too, he said; you should have seen the pants stand at attention when the band played "Dixie". The coat just sagged at ease and clapped lapels.

The "Shorts" challenged the "Longs" to a baseball game; three bases were stolen. Last year the Athletic department broke down and replaced these three bases. Y'know, that game is an idea we ought to try sometime; Ellsworth and Sarli, choose your sides.

TAU BETA PI—From Page 1
Miral Cluverius holds the Distinguished Service Medal of the United States, the Order of Leopold of Belgium, the Legion of Honor of France, the Order of the

Crown of Italy, and the Order of St. Olav of Norway.

Professor Donald G. Downing received his Bachelor of Science degree from WPI in 1926 in the Civil Engineering department, later receiving his Master's degree in 1937, also from WPI.

Following graduation he was an instructor at Lehigh University for a year, returning to Worcester in 1927 to begin 23 years of continuous service to Tech men and Tech ideals. Professor Downing receives recognition at this time primarily because of his extraordinary teaching ability and perception of student problems and difficulties, two traits which make him at this time probably the man on the Tech campus most conscious of faculty-student relations and problems.

Professor Downing is advisor to the Tech Council and to Skull, Director of the Summer School, and Chairman of the Hour Plan Committee. Active in fraternity circles, he is Regional Advisor of Phi Sigma Kappa fraternity.

TEACHERS WANTED

Universities and Colleges

Engineering Department Heads, \$8,000; Pharmacology. Science, Young Ph.D.'s needed in all fields. Librarians. Home Ec. to \$6500. Coast to Coast Coverage.

ELEMENTARY AND SECONDARY

Inexperienced Teachers start at \$2700 to \$3000. More for experience. Calif., Mich., Others. Music, Art, Home Ec., Elem. Supervisors, Principals, Critics. Top Money
