## Football

### Schedule Announced Rebboli New Coach

The following schedule for the football team this season has been announced by the management:

October 6, Norwich at Worcester  
October 13, 1st Reg. Maine Heavy Field Artillery at Worcester.  
October 20, R. P. I. at Worcester.  
October 27, Springfield Y. M. C. A. College at Worcester.  
November 3, Stevens at Hoboken.  
November 10, Amherst at Worcester.  
November 17, N. H. State College at Durham.

Prof. Carpenter is at present corresponding with one or two colleges with the hope of adding another game to the above schedule, which is all ready one of the best Tech has had in recent years, in spite of the adverse conditions. It should be noted that the games at home on the 13th and 20th of October, and the one with Amherst on the 10th of November, come when Holy Cross is playing out of the city, and for this reason should prove to be a big attraction to the local fans.

The football team had its first practise yesterday on Alumni field, when a large squad turned out for the first limbering up. Mr. Chas. J. Rebboli '99, is the new coach this year, and is a man with wide knowledge of football. When at Tech, Mr. Rebboli filled a very important position on the team for four consecutive years, and won for himself an enviable name. The News wishes Mr. Rebboli the best of success with his new men this year. Capt. Kalagher has confidence that Tech will have a first class team on the gridiron this fall.

### TRACK MEET

#### Freshmen-Sophomore, Oct. 13

All Freshmen and Sophomores out to train for the big meet on October 13th. The sooner candidates report, the better chance they will have to make a good showing in the races next month. Some of the old "Vets" will be down at the field each afternoon to help the boys get started in the right direction. The interclass meet will be the big event in track this fall as there will probably be no cross-country running, owing to lack of interest.

So come out strong, '20 and '21, for that meet. Ribbons will be awarded to those who place first, second, and third in each event. Make sure of a few ribbons by starting to train now.

### CARNIVAL UNDER WAY

D. K. Pattillo as chairman of social affairs for the Y. M. C. A. announces the second Tech Carnival for about December 1st. All those who enjoyed last year's fun will surely welcome another Carnival this year.

## Scholarship of Students by Fraternity Groups for 1916-17 given by weighted grades

## Freshmen Welcomed at Two Affairs

A good number of upper-classmen and Faculty members turned out to welcome the Freshmen last Saturday night. Music by the orchestra, songs, and cheers, helped to wake up Tech spirit, and make the evening a lively one.

Professor Haynes, as master of ceremonies (and a fine one, too), introduced first President Hollis, who spoke with his usual effectiveness concerning our part in the world's present crisis. Representing various Tech activities, the following spoke:—Kalagher, for football, Carlson for baseball, Sessions for track, Hall for dramatics, Huggins for the musical association, Kyes for the Tech News, and Livermore for tennis. Prof. Carpenter represented physical education in general, and H. F. Stuart the Y. M. C. A.

The speaker of the evening was Dr. E. P. Drew, pastor of Old South Church, who gave an inspiring talk on "Service."

A reception for Freshmen alone was given by the Y. M. C. A. in the Gymn. last night. Winthrop G. Hall, '02, was the principal speaker. Several cabinet men spoke, outlining their parts of the Association's program for this year. Rutherford spoke on the voluntary study groups, Parsons on industrial service. Pattillo spoke concerning social activities, and Harland Stuart for the work in general. Bauder, with music, added "pep" to the evening.

Refreshments were in the form of peanuts, and ginger ale.

Russell W. Hirst, as president of the Association, acted as master of ceremonies. Members of the Faculty were especially invited to attend. It may truly be said, as we so often hear, that a "good time was enjoyed by all present."

### REGISTRATION SMALL

As was expected, Tech opened this year with a rather small registration. The lists show an attendance of 415 students as compared with 539 last year. The sophomore class with 124 men on its roll is the only class which may compare favorably with last year's classes. Last year's Sophomore class had 128 men. There are 6 graduate students this year against 17 last year, and 72 Seniors this year as compared with 100 last year. This year's Junior class, with a roll of 74, has 26 less than last year's Junior class. The entering class has 139, which shows a falling off of 47.

Because of this small attendance, it is up to each man to do his best, so that Old Tech may have one of its most successful years, in spite of adverse conditions.

### CALENDAR

TODAY (WED.) 7:15 p. m. Y. M. C. A. meeting in Gym. All invited.

THURSDAY—Entries close for tennis tournament.

SUNDAY—Have you picked out a church home yet?

EVERY DAY—Football and baseball practise.

COMING—Interclass meet, Oct. 13.

## BOOST TECH

## Editorials

THE NEWS begs to introduce a new feature, the "Crazy Poet's Corner." We want to know whether you welcome it or not. Although the student who contributed this week's verses wishes to withhold his name, we hope that others will contribute and allow us to give them credit. Come on, you men who have a taste for verse; let's see what you can do to make the "Corner" a bright spot in the paper. Comic or serious verses are equally welcome; we only ask that they be sincere and original.

Other new features will appear in early issues. Watch for them.

HOW DO YOU like the new caps?

EVEN IF many activities have to be discontinued for this year, we would urge the staging of an Eighth Annual Tech Show. While recognizing fully that this always takes a great deal of time and hard work to produce, we nevertheless feel that the Tech Shows have become too thoroughly a part of our social year to be dropped lightly. If concentrating on fewer activities, we must do the few well. Why not keep the show as one of our few activities, and make it a winner?

THEY SAY the Seniors didn't respond very well to the blanket tax proposition. Wake up, 1918! We know you're hard up; all of us are. But grin a while longer, and play the game. And you other classes:—none of you did unusually well. All together, now, boost for Professor Butterfield's coveted 78% and a sound financial basis for athletics. If you fail to understand what "78%" means, we refer you to the previous issue of the NEWS. Better read the report in that issue again, anyway, to remind yourself of the need, and the way in which you can help by "doing your bit."

"CY" MERRIAM was in town last week. And did he get a rousing welcome? I guess. We all like Merriam, for we know he is helpful and straight and persevering in whatever task comes to his hand. And did he make an imposing soldier? Well, we wish Uncle Sam had a few million more like him.

A GREEN FRESHMAN coming to Tech is likely to see a few things which will surprise him, and, from them, to gain the wrong impression at the start. For instance, he sees men who are undoubtedly "fast," and assumes that speed is fashionable. For this reason, the NEWS wishes to speak a word of warning. "Take it from us," Freshmen, the one thing which is most fashionable at Tech is hard work. It is also fashionable to be an optimist, and to grin when hard knocks come, and, lastly, it is fashionable to keep your ideals, and walk straight. The next time you see a speedy crowd, remember that it is far outnumbered by the crowd of workers. Go slow and play safe.

## YOUR CHANCE!

We want especially some live Freshmen to come out for reporting work. It's good experience, and faithfulness seldom fails to win a staff position in due season. Let's start right, and pull together for a big year. Remember that you must start now to be eligible for membership in the Association when the elections come around, next February. All out!

## NEW HANDBOOKS

The 1917-18 "Tech Bibles" will be ready at the Y. M. C. A. offices today. To obtain one of these useful handbooks it is only necessary to fill out a card of statistics at the Association offices. "Nuff Sed."

## THE CRAZY POET'S CORNER

### AFTERWARDS

When wars are done, and banners furled  
To hide their fame in storied halls;  
When, once again, a weary world  
Has clothed itself with roofs and walls—  
Mid other dreams, perchance, will come  
The sights and sounds of sterner days,  
When shrilling fife and rolling drum  
Sent youth to arms, with hearts ablaze.  
And we shall find strange discontent,  
Who knew the joy of sacrifice,  
That peace and plenty have not lent  
War's golden flash to men's dull eyes.

God help us, in that dreary hour,  
In clearer terms our task to see—  
That ever waits some tyrant power  
For bloodless war with such as we.  
Wherever one, o'er others set,  
Wrings tribute from the souls of men  
There Freedom's flag will hasten yet,  
And call us to the fight again  
Where Love extends her shining sword,  
With willing hands its blade to draw,  
And build in Peace for our dear Lord  
The great equivalent of War.

### CHANGES IN FACULTY

Owing to changed conditions, the following rearrangements have been made in the Faculty:—Francis W. Roys, formerly an instructor in mechanical engineering, is made assistant professor of mechanics; Francis J. Adams, formerly instructor in electrical engineering, is made an assistant professor; Raymond K. Morley, who has been assistant professor of mathematics, is made professor. We feel sure that the student body will welcome all these promotions as highly deserved.

We are sorry to have to add the name of Paul T. Sellers to the list of those teachers who have recently left the Institute for other fields of work. Mr. Sellers had, for the past year, been an instructor in mathematics.

### NOTES OF THE M. E. DEPT.

Plans are under way to enlarge the Washburn Shops office-space, providing more ample quarters for the cost-accounting department. The shops are at present experimenting with a system using time-clocks and the Hollerith tabulating mach-

ine, with special data cards. Knight, '17, is working on this system in conjunction with the regular shop heads.

Many interesting orders have been filled by the shops recently. Four motor-driven drills have been sent to the Boston Navy Yard; 250 drawing stands to the Naval Academy; three drill-grinders to the Russian government; and two three-spindle drills to the Navy Yard at Washington.

B. L. Gray of the M. E. Dept. was called to the Portsmouth Navy Yard recently to give expert advice on troubles encountered in the foundry there.

Professor W. W. Bird has completed a series of walking trips, started several years ago, radially from Worcester to Brattleboro, Vt., Nashua, N. H., Portland Me., Providence, R. I., and Hartford, Conn. He has also walked around the circle, touching at these five points, making a total of a thousand miles, and passing through one hundred and sixty towns and villages.

Professor Bird was on board the steamboat in Boston harbor, when it was rammed by a submarine, and was interested to note the ways in which various passengers behaved. But you should get that story from him directly.

### "ASK STUART"

At the beginning of this new school year, Secretary Stuart of the Y. M. C. A. desires to remind all students who wish part-time employment, or who have not obtained as yet board and room accommodations, that the Association is especially well-prepared to settle any such difficulties. Better go and talk it over today.

### TENNIS TOURNAMENT SOON

For W. P. I. Championship

The first athletic event of this school year is to be a tennis tournament for the singles championship of the school. The varsity team lost two of its members by graduation last June, and will recruit its strength from the men who show up well in this and such other tournaments as are played before the intercollegiate season begins. These incentives should induce all who can play tennis to enter their names for the tournament.

All entries should be in the TECH NEW, box in Boynton Hall by noon Thursday September 27. The entrance fee is \$25 and from the money obtained from the fees a cup will be bought to be presented to the winner of the tournament.

In addition to this singles tournament, which is open to all Tech men, there is to be an interfraternity doubles tournament run off in the near future. It is to be hoped that there will be a large number of entries for the singles tournament, not only in order to make it a truly representative one, but also in order to bring out as much new material as possible, particularly from the freshman class.

### FALL BASEBALL

Now, 1921, it's up to you to come out and show the Sophs. that you can "even up" scores for those "blazers" which they have handed you. Every man who can play baseball should come out and try for a place on his class team. Don't be afraid to come out, and hang back because you think you can't play well enough. That's just how the other fellows are feeling. An inter-class series of games will begin in a very few days, and the only way to win that series is to come out and hustle for it. For the Sophs. have been listening at the keyhole while we've been telling you this, and they'll be hustling, too.

### PROFESSOR DAVIS LEAVES

It is with extreme regret that we announce the resignation of James C. Davis, Assistant Professor of Mechanical Drawing. He has accepted a position as Associate Professor of Applied Mechanics in the University of Oklahoma at Norman, Oklahoma.

Professor Davis came to Tech in 1906 as instructor in Mechanical Drawing. In 1914 he became Assistant Professor of Mechanical Drawing and has served in that capacity since. He will surely carry with him the best wishes of the many friends he has made since he came to Worcester.

### Y. M. C. A. MEETING

For All Tech Men

Wednesday night, at 7:15, Tech men will get together for the first Y. M. C. A. meeting of the year. Special instrumental music will be provided, and rousing songs. We are not able to announce the speaker, but urge you to come and find out for yourself who he is. Every Tech man is invited, Freshmen especially. Let's start the year with a rush.

YOU may want to post yourself as to the Fall style features before seeing the clothes.

There is a tendency toward little longer coats of suits. Lapels are a trifle wider and slightly soft roll. Shoulders are a little wider and "worked up" to suggest a "Military" effect.

These—and other—new features are brought out with particularly good effect in our **Society Brand Clothes**, which you should see.
