

Portable Stair Lift System

Designing a Modular and Mobile Assistive Lift Apparatus

A Major Qualifying Project Report:

Submitted to the Faculty of

WORCESTER POLYTECHNIC INSTITUTE

In partial fulfillment of the requirements for the

Degree of Bachelor of Science in Mechanical Engineering and the

Degree of Bachelor of Science in Robotics of Engineering

The project has been completed
in the academic year 2020-2021 by

Zhanhong Huang (RBE) 2021

Chenxi Li (ME), 2021

Robert Peralta (ME), 2021

Mingzhang Zhu (ME & RBE), 2021

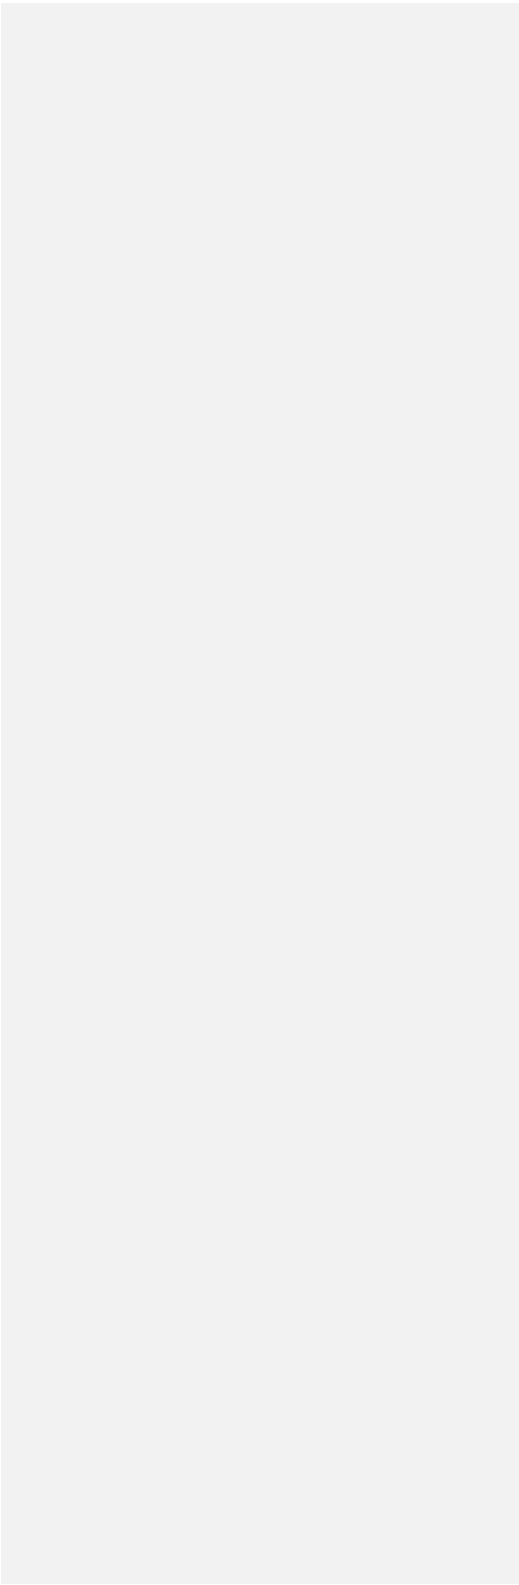

Completed under the advisement and approval of

Selcuk Gucer, Advisor, and

Pradeep Radhakrishnan, Co-Advisor

This report represents the work of WPI undergraduate students submitted to the faculty as evidence of a degree requirement. WPI routinely publishes these reports on its website without editorial or peer review. For more information about the projects program at WPI, see <http://www.wpi.edu/Academics/Projects>

Abstract

Acknowledgements

We would like to express our special thanks to the following people and groups. This project would not have been at all possible without their help and support.

- Worcester Polytechnic Institute
- Professor Selcuk Guceri
- Professor Pradeep Radhakrishnan
- WPI Mechanical Engineering Department
- WPI Robotics Engineering Department
- Barbara Furhman
- And more

Table of contents

Abstract

Acknowledgements

- I. Introduction
 - A. Objective
 - B. Problem Statement
 - C. Need Assessment
 - D. Design Goals
- II. Background
 - A. Customer Identification
 - B. Use Environment
 - C. Constraints
- III. Methodology
 - A. Mechanical
 - B. Electrical & RBE
- IV. Technical Details
 - A. Design Specs
 - B. Project Development Process
 - C. Ideation and Iteration of Designs
 - D. Final Mechanical Design
 - E. Electrical Design
 - F. Control System Design
 - G. Manufacturing and Assembly Process
- V. Implementation
- VI. Conclusion
- VII. Recommendation
- VIII. Reference
- IX. Appendix
 - A. List of Figures and Tables
